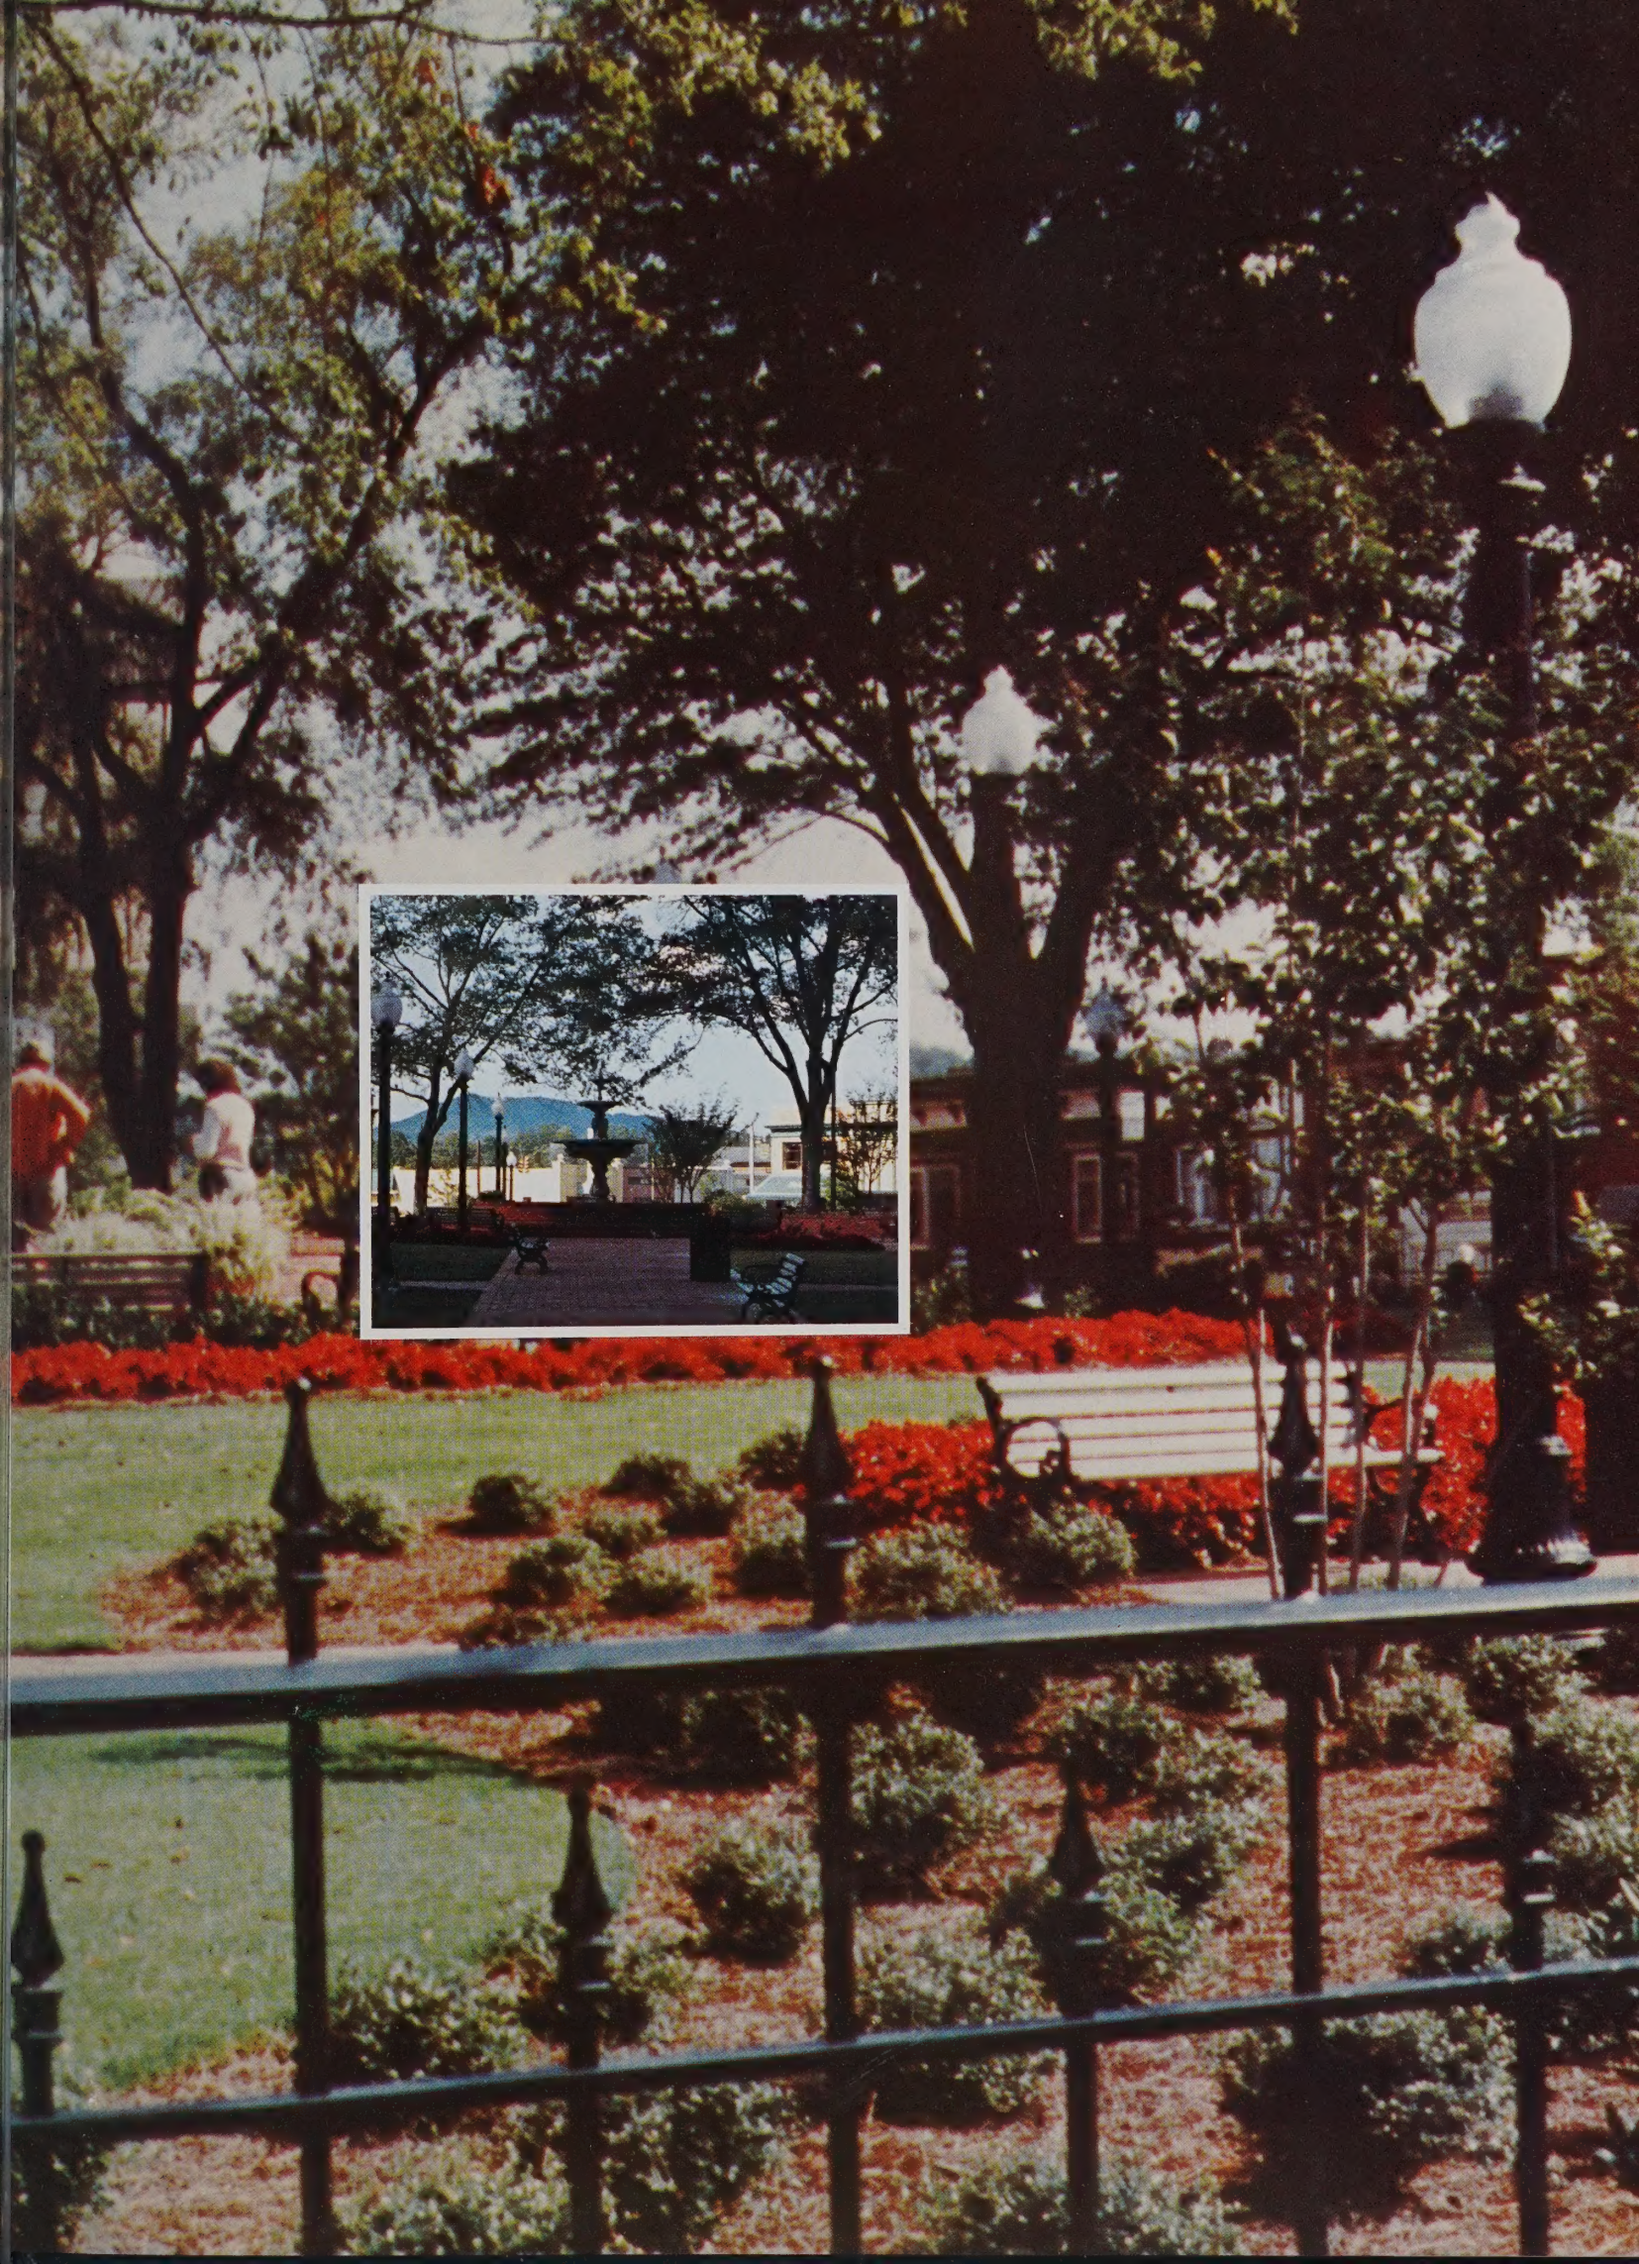
Southern College of Technology Moving Up '87 Vol. 38

An important part of a college students' life, besides the importance of an education and leading an active life on campus, is his life off campus. For many of us, the Marietta Cobb County area serves as a place of business, employment, recreation, residence, etc. Through the eyes of our photographers, we present to you the beauty of the city of Marietta.



NNESAW HOUSE

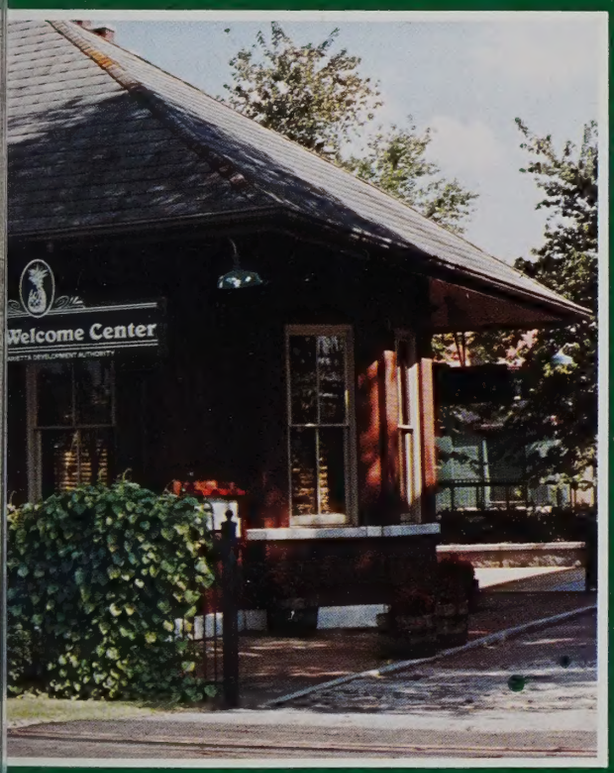
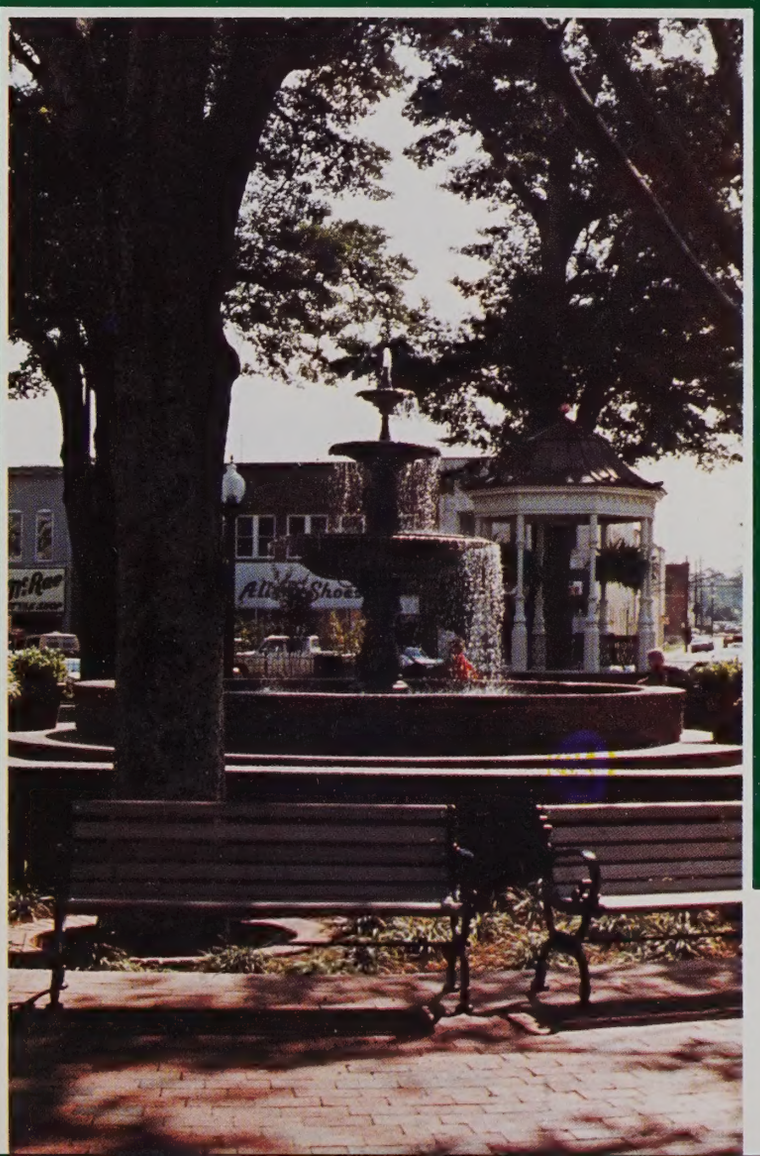
The Town of Marietta





Whether at work or play, Southern Tech's finest are always busy leading active and rewarding lives. In this short pictorial and throughout the yearbook, we will try to cover all facets in your life, the average college student, through words and pictures from events and scenes on campus, as well as off campus. Be advised, you could very well be in one of our photos and never knew that we took your picture.

DATELINE 48

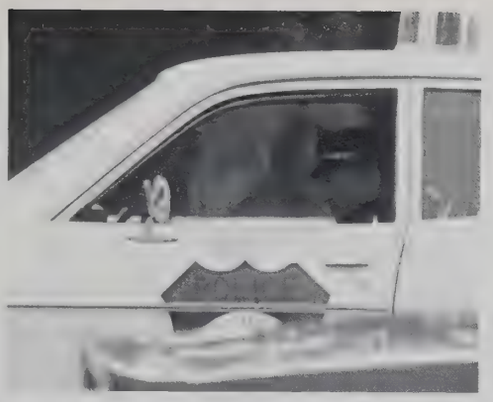
Campus Life is a section devoted to you, the student. Through words and pictures, the yearbook staff has tried to capture those memories in your college career that have touched the lives and the hearts of us all and will go down as a part of Southern Tech's history.

Student Life

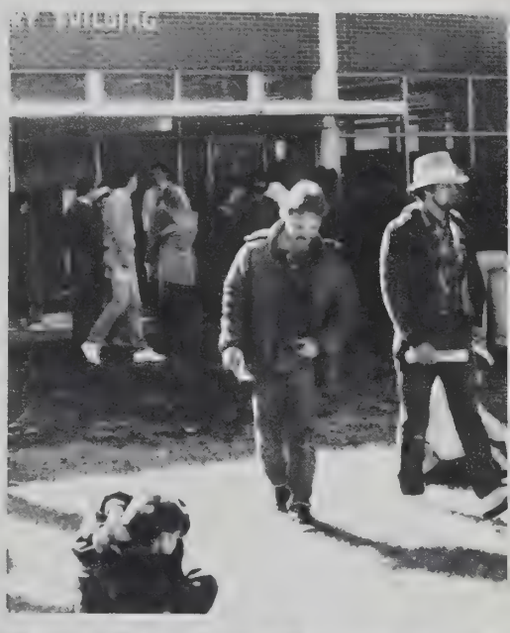
Beach Party, a wild and fun function created for the students of SCT. The students have CAB — Campus Activity Board — to thank for this fun get loose event. Beach Party is full of contest and games for the entire campus: contest such as Bathing suit, Simon Sez, and Wacky Tourists. Of course, a party is a party unless there is music. Therefore, CAB deserves many thanks for making this event a happening. Another thing that made Beach Party a success was the weather — for once, Beach Party was not rained out and held in the gym.

CANDIDS

Top Right: We really made a special effort to get to class.
Middle Left: I've told you time after time that these steps will be the death of me.
Middle Right: Come on, look at me. I promise, I won't do it again.
Bottom Left: You know, we go through the #$@!* every registration.
Bottom Right: Yes, we were bad again.



Top Left: Honest, I really enjoy this class — Want to see my test grades.
Top Right: He's working hard — must have had a field day writing parking tickets.
Middle Left: Oh God! I can't wait till five o'clock gets here.
Middle: I knew I had something to do. Oh well, one more "F" can't hurt.
Right Middle: Maybe I'll just drop out all together — since I can't get the classes I need during drop-add.
Bottom Left: We're just thrilled to have our picture taken. Can't you see the enthusiasm in our smiles?
Bottom Right: **Car and Driver** nominated this car of the year.



Bath Tub Race

Just as Southern Tech has grown, so has the Bathtub Race. With its meager beginnings during the mid-sixties as fraternity pledges dragged a bathtub full of iced down beer and a driver through a muddled road, the Bathtub Race has evolved into the high-tech form of racing that it is today. The race gives the students a chance to show off not only their driving and split second pit stop performances, but also provides an outlet for alternate applications of their engineering skills taught in the classroom.

The racing vehicles, or tubs, as we call them, are actually 140 pound cast iron, roll rim, claw foot bathtubs from years ago. The crew usually must search diligently to find a suitable tub, which usually involves tromping through many a cow pasture. The tub is surrounded by a frame of which material and design are devised by the crew to provide the handling characteristics they desire. Then the tub is fitted with an engine, usually a motorcycle engine and transmission having a displacement of less than 175cc. Additional features are added, such as rack and pinion steering, 4-wheel disc brakes, aerodynamic body panels, and release fuel tanks which allow top crews to make a pit stop in less than five seconds.

Each team and crew is made up of a tub and its driver, as well as up to four crewmen. Each crew must build their entry to conform to the current rules and pass a tech inspection before the tub is allowed in the race. The drivers and co-drivers must likewise pass a written exam and situation drivers school before being certified as a qualified driver. Each entry must also supply additional manpower to help with placing the protective tire barriers and to serve as "Track Marshalls" to help with crowd control on race weekend.

There are currently two bathtub races held each year at Southern Tech. The Fall race, a 60 lap event over the 1.1 mile road course on the campus, and the Spring race, a 75 lap event over the same course, is held each May. The two races, although only 15 laps different in length, have developed into two distinct — yet similar races. The shorter of the two events, the Fall race, is held each October when the weather is cool and dry. This allows crews to set their tubs up to run a 60 lap sprint race where quick lap times are of the major objective. The Spring race takes on the appearance of an out endurance race where reliability plays just as big a role as quick lap times. The lap times do not drop, as is evidenced by the fact that three of the previous four track records have been set during the Spring race. The crews just have to work harder to make the tub last through the grueling heat for close to 1½ hours.

Top Left: Lambda Chi Alpha, winners of the Fall Bathtub Race
Middle Left: Sigma Nu, winners of the Spring Bathtub Race.

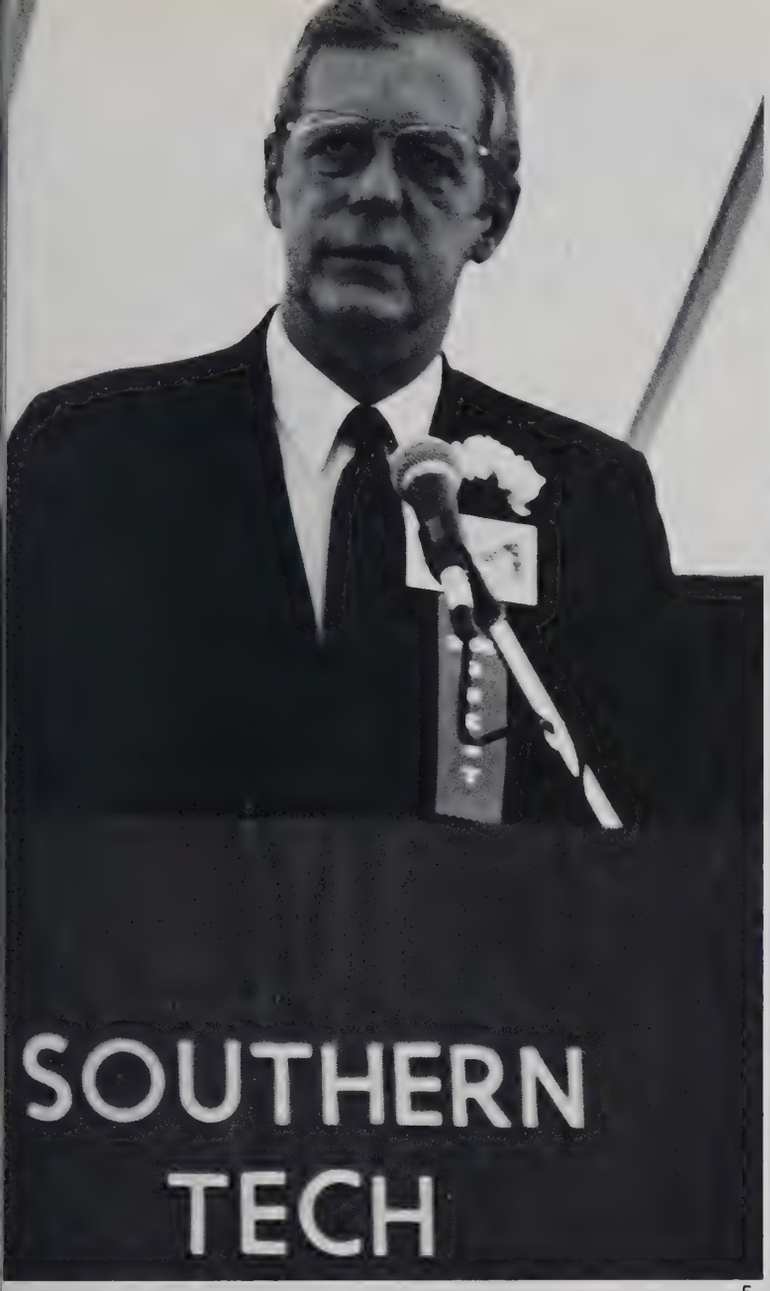
Speakers

1

3

4



5

Southern Tech was fortunate in 1987 to be visited by prominent speakers. These speakers enriched the world view of Southern Tech's student body and faculty. They brought different ideas about the world and what they thought the world should eventually be like.

One of the biggest speakers to visit Southern Tech was Governor Joe Frank Harris. His visit in the fall of 1986 was one of the highlights of Techfest, a two day celebration of the construction projects occurring on ST's campus. Governor Harris along with Pres. Cheshier and other prominent guests officially opened the new academic building with a ribbon cutting ceremony.

Another major visitor to Southern Tech was honorable Mayor Andrew Young, mayor of the city of Atlanta. Mayor Young came to ST in February in observance of Black History Month. Young spoke of the inadequate educational system in this country. Mayor Young's speech was very informative and eye opening. His analysis of the educational system in this country caused ST to question the current path of education in this country. The ST community benefitted greatly from these speakers. Hopefully next year will bring even more speakers with bright new ideas.

1. Andrew Young speaking during Black History Month.
2. Mayor Andrew Young.
3. Andrew Young making a point during his speech.
4. Mayor Young speaking with students after his speech.
5. Governor Joe Frank Harris speaking during Tecfest.
6. Governor Harris at the ribbon cutting ceremony.
7. Governor Harris speaking of the construction on campus.

ENTERTAINERS

Southern Tech's student body loves to be entertained. The year of 1987 had a deal to offer where entertainment was concerned. CAB (Campus Activities Board) worked very hard to provide a variety of entertainment. Whether you like country music, classical, or comedy there was something for everyone.

CAB sponsored a talent show in winter quarter, in which students displayed their talents. Tim Johnson, who sung a gospel selection, was the winner of the talent show.

One of the bigger acts to entertain Southern Tech was Byron Allen, former co-host of the t.v. show "Real People". Byron had the student population rolling as he fired fast one liners. No student was safe from Byron's wrath as he searched the audience for potential victims of saline. After hearing Byron perform, Southern Tech felt as though it had truly been entertained by a true comedian.

Southern Tech was entertained by some great acts this year. Entertainment plays a very important part of a college student's life. In years to come, Southern Tech will hopefully be entertained by bigger and better acts but for now this year was a banner year.

1. Blue grass band performing in the student center.
2. Blue grass singer belting out a lyric.
3. Byron Allen joking with the audience.
4. Comedian/Emcee, David Kenny performed at several functions this year.
5. Star Search winner performs here on campus.
6. Ms. Brown singing in the talent show.

Campus Life can actually be fun

College can give any person a lonely feeling but after you get involved with the activities, there is endless enjoyment.

The dorms are constantly being provided with entertainment. The hall parties sponsored by the RA's or the bands provided by the campus activities board. Students are provided with outdoor movies with popcorn when the summer heat starts to warm up the rooms.

There is also a volleyball court between the dorms to give students that togetherness feeling.

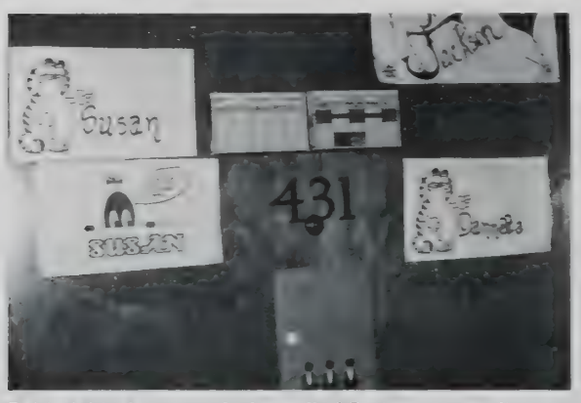
The fun never ends once a student moves on campus.

I wish everybody could like their roommate as much as I like mine. I just can't keep hands off her.

This is the bottle ballet class; the registration fee for beginners is a 12-pack of Miller L The advanced classes are required to have Bud also.

For some people, there can never be enough air to keep them cool, so, they "bare-it-all" and open the door (Future Exibitionist of America) F.E.A. "I am a member of the F.E.A.: our motto is 'bare-it-all, then open the door.'"

This picture was the only thing that kept me on my homework and off my boyfrien swear.



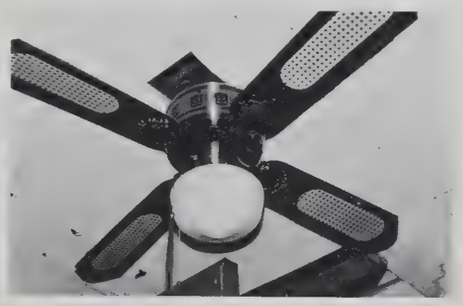
Behind this door, stands the wall of Gerico — compliments of Susan.

l did wash my hands before leaving men's room; I even ed my friend do his dishes.

After working on this project for a week, I decided that this room wasn't big enough for my project and my roommate, so, I packed her bag.

room came in second place in the home of the week est. (The buck stopped here).

I never thought flunking a class could make me so happy. Well, back to the "Want Ads".



There will never be another summer that this room will be caught without a working cooling system. (They don't call us engineering students for nothing.)

When the going gets tough, the tough get drunk — in groups.

The telephone is a wonderful invention; you can ask your parent for money without seeing their facial expression.

The Dormitories— Home Away From Home

Learning to adjust to being away from home is difficult for most students.

Going away to college is more than just being "On Your Own." Going away to college means meeting strange new people, learning to compromise, having valuable experiences and friendship. Living in the dorms is an experience in itself.

Southern Tech has two air-conditioned dormitories which provide a home for more than 400 students each quarter. Each room is usually occupied by two students and provides a convenient home on campus.

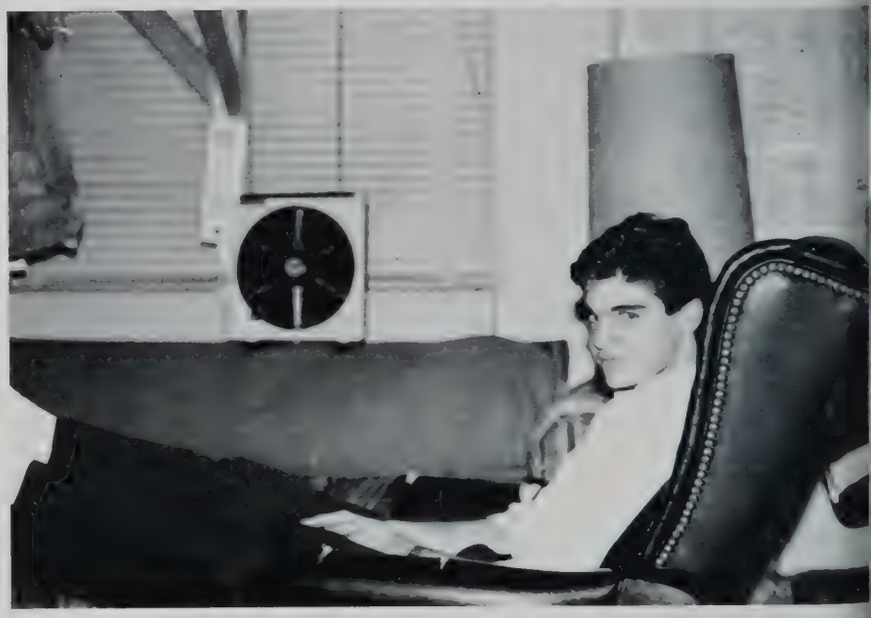
Learning to adjust to this new lifestyle is sometimes difficult. Although Steve Holtz and Terri Carruth do as much as they can to help each and every student, they cannot because they are only two people. Therefore, they are assisted by a staff of resident assistants (RA's). These resident assistants have been carefully picked from many students which applied and were chosen because of their individual talents and ability to get the job done.

The residents know that they can go to any RA at any time to discuss any problems that may troubling them at that moment. The RA's, are living "big brothers and big sisters" that want to make this "Moving UP" transition as smooth as possible.

Top Right: RA — Group Shot Howell and Norton Dorms
Left to Right: 1st Row: Carmen Goitia, Eric Alexander, Jo Lynn Sams, Bobby Blount, Christi Redic. 2nd Row: David Kapiloff, Mark Powell, Robert Fazio, Lane Woodall, Brian Sammon, Shane Siniard. 3rd Row: Ted Graves, Kelly Davis, Barry Coggin, Jack Murray, David Jones, Scott Mossbrooks, John Gasser (Behind Fazio), Larry Gil, Brian Teets.

The famous Howell Dorm beaming with style.

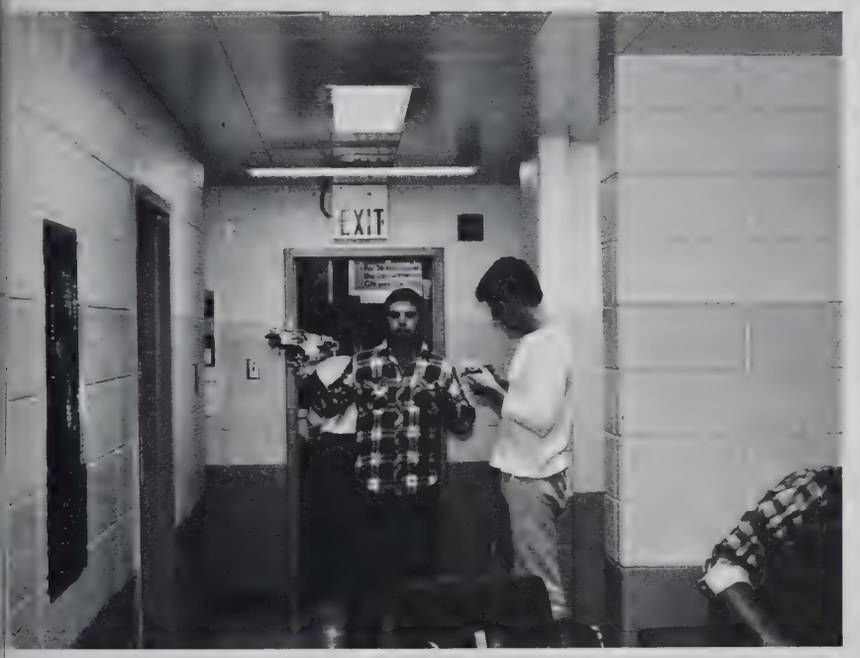
Don't bother me. I can't cope. Yes, it was something to do with finals.



That's right, I'm relaxed, very relaxed as a matter of fact.

So, what do you want to do tonight?

I always smile when I flunk a class.



Hall parties can be fun.

Yes, you can get home of the week applications here.

pparently, Love gets him through his work.

Admission policy of room 128.

"Computer Love"

OLD FRIENDS

Old friends are best I do agree,
  But to this fact I hold;
That everything must first be new
  Before it can be old.
That old friend whom you love so much,
  Who's staunch and true and bold;
Was brand new on the day you met,
  Tho' now you call him old.
So make new friends each passing day
  The years quickly unfold;
And new friends whom you make today
  Will soon be classed as old.
And then you'll have a store of wealth
  That far surpasses gold;
For all the friends who now are new
  You'll soon be calling old.

Alice Cotterill

"Love at first bite"

"Motorin' "

"Friends Forever"

"Nasty Girl"

"Eat it."

"Wasted away, again, in Marquerita Ville."

"Me and Mrs. Jones"

"Walk this way."

"Climb every mountain"

"We're making John's girlfriend."

GIVE ME A FRIEND

Give me a friend and I'll worry along:
My vision may vanish, my dream may go wrong;
My wealth may lose, or my money may spend;
But I'll worry along, if you give me a friend

Give me a friend, and my youth may depart
But still I'll be young in the house of my heart
Yes, I'll go laughing right on to the end
Whatever the years, if you give me a friend.

Lois A. Bailey

The envelope glue dried on my face.

Highway to heaven.

Party Time!

We'll never get it up there!

Look at those shoes.

Split personality.

Has anyone seen my hands?

Get in shape at the commons.

It won't come up.

Unless checks are involved.

Thank God for paper sacks!

Trout farm?

SGA
Student Government Association

The Student Government Association serve very important function. It is through this organ tion that the students may voice their opinions concerns for the decisions and policies of the lege. All students have a part, be it voting in elections or holding an office. This year's Stud Government Association did a fine job represent the student body.

1987 Homecoming Queen

The tension thickened as the 10 candidates stood anxiously awaiting the final announcement of hearing their name broadcasted over the intercom as the "1987 Homecoming Queen" of the Southern College of Technology—Southern Tech. All of the candidates felt shaky all over, but Deneen Sorrells was shocked to hear her name over the intercom.

Sorrells, escorted by Mike Bryant, represented Alpha Delta Pi of which she is the Chaplain. Also, she is involved with the Tau Alpha Pi Honor Society, Baptist Student Union, and Computer Geeks of America.

Becoming a Homecoming Queen is a long and hard path to follow. To qualify for the homecoming queen candidacy, the candidate must be a student of S.C.T. for 2 quarters and maintain a G.P.A. of 3.0. Once the candidates have met these stipulations, they must be chosen by an organization or greek group to represent. Once each group has its candidate, the candidates are then subjected to a campus wide vote of which only 10 can become finalists. After the first campus wide vote, each candidate is given an interview by CAB. Now that the remaining finalists have had their interview, they will be subjected to another campus wide vote. Through the second campus wide vote, the homecoming queen and the four runners-up are picked.

Deneen Sorrells and escort, Mike Bryant.

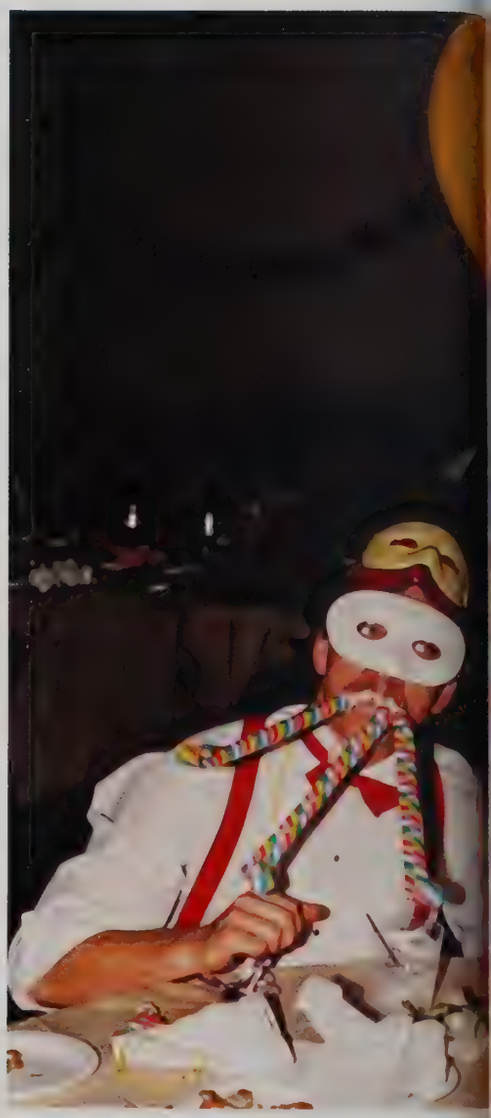
Homecoming Dance



The Homecoming Dance was held after the game at the Radisson Inn in Atlanta. Thanks to the planning and organization of CAB, the Dance turned out to be a spectacular event. Mardi Gras was the theme and was entirely evident, as balloons and streamers were everywhere. The refreshments were tasty and the music was great. The dance floor remained crowded as Phoenix, a local band played, played hit songs, and Kristy Tanner, one of hottest DJ's from one of Atlanta's hottest radio stations, 94Q, hosted the dance. The celebration continued as Ms. Sorrells joined last year's Queen, Alicia Jordan, and past Queens from 1982 to the present in a reunion during the Queen's dance.

The Homecoming Game 1987

The homecoming game is one of the many and essential events held during Homecoming Week because without it there would be no need to celebrate it. The game was held at 7:30 p.m. in the gym, and the Running Hornets coasted to an easy victory as they dominated over Allen University 83 to 63. During halftime, prizes were awarded for the banner contest. Tau Kappa Epsilon (TKE) and Alpha Delta Pi (ADPi) tied for first place, while Pi Kappa Phi (Pi Kapp) placed second.

SOUTHERN
20
TECH

Techfest

Techfest '86 was a two day celebration of $12 million of capital construction projects on Southern Tech's campus.

"Touch Technology at Southern Tech" was the theme for the open house, held October 3rd, which kicked off with a dedication and ribbon cutting of four major construction projects consisting of the new academic building, the library addition, the Apparel/Textile Center of Excellence, and the Student Center addition. Georgia Governor Joe Frank Harris was the dedication speaker with closing remarks made by B. Gentry Lee, Chief Engineer of Project Galileo at the Jet Propulsion Laboratory in Pasadena, California and on loan to NASA as Director of Advanced Projects for future space exploration as well as co-producer with Carl Sagan of Cosmos.

On October 4th, visitors were invited to tour the Southern Tech campus and learn what's new in the area of engineering technology. Under the big tent, entertainment was provided along with displays and demonstrations using robots, lasers, and computers which enabled visitors to literally touch technology. The days' events ended with a multi-slide show presentation presented by B. Gentry Lee.

PLAY BALL!

The 1986 Southern Tech baseball team had the most successful season in the history of the school. After starting slowly at the beginning of the season, the Hornets improved tremendously and completed an outstanding year by winning the District 25 Championship, the Area V Championship, and then making a trip to the NAIA College World Series in Lewiston, Idaho, losing after two games.

The final season record of 34–19 marked the fourth consecutive year the hornets have won over thirty games during a season. Head coach Charlie Lumsden along with assistant coach Roger Hackett coached the team to victory after victory.

The awards presented at the sports banquet went to the following players:

Sam Dart – Best Hitter – GIAC Conference player of the year; All District; All Area
Chris Jones – Best Defensive player
Mike Muse – Most Improved
Mark Minter – Best Relief Pitcher
Ivan Phillips and Kevin Minter – Best Pitcher
Mike Williams was selected All – Conference
Eric Alexander was drafted and signed by Atlanta Braves.

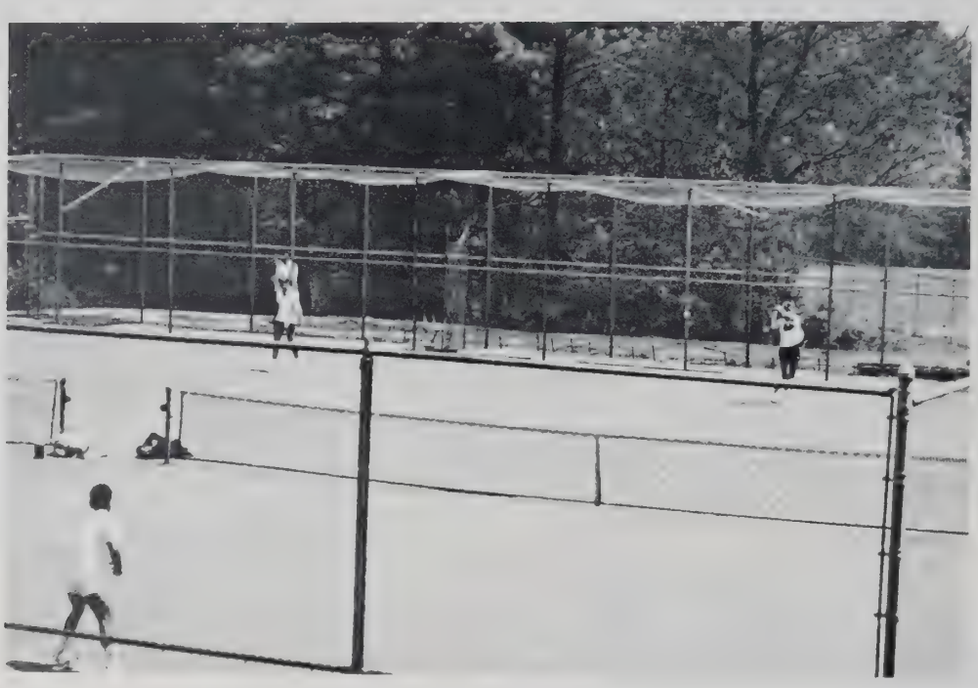
Tennis



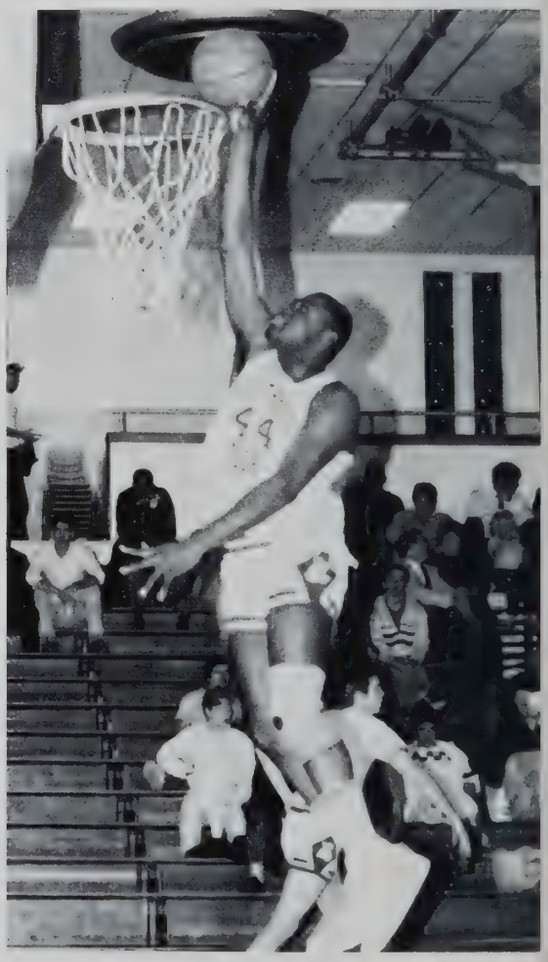
HORNETS PACK POWER IN THAT STING!

The 1986-87 Southern Tech Hornets were District 25 Champions once again — a feat last accomplished in the 1979-80 season. Head coach George Perides along with assistant coaches Richard Stallworth and James Waldon led the skill-packed Hornet team to victories all season. The Hornets boasted a tremendous total of 28 wins over 7 losses for the season in the National Association of Intercollegiate Athletes (NAIA).

The Hornets had five Seniors on the team which contributed to the Hornets' success. The Seniors were Anthony Daniel, Preston Gates, Eric Jones, Fred Watson, and Dennis Williams. Assistant coach Richard Stallworth noted, "The Seniors were a key element in our team leadership and unity." The undergraduates on the team were Chris Carter, Craig Collard, John Boulware, Reagan Earney, Terry Givens, Darren Holley, and David Shelton.

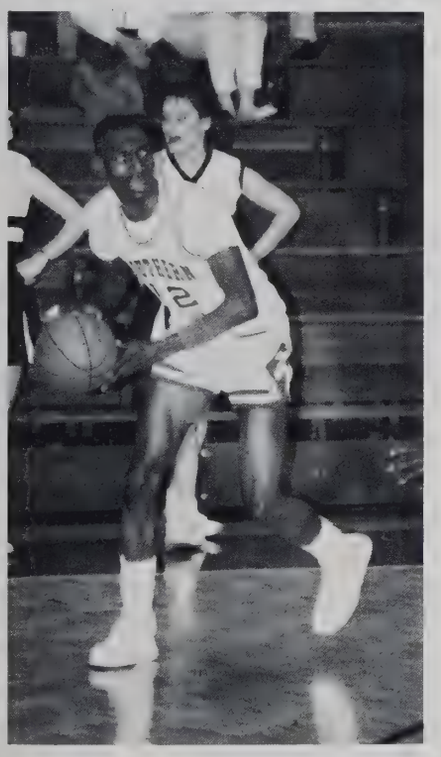
The running Hornets held the nation's top percentage in field goal completions at 59%. By winning the Conference Championship against Nova University and North Georgia, the Hornets enjoyed home-court advantage and played Georgia Southwestern for the District Championship. Unfortunately for the Hurricanes, they felt the sting of Southern Tech's Hornets. After that, the Hornets advanced to Kansas City to contend for the National Championship Play-offs. Taylor was the opponent and they captured the victory in the game against the Hornets with a score of 65-56. Although disappointed by the loss, the Hornets were satisfied with an impressive season. The Hornet team remains optimistic about the future and the members feel confident about next year's season. Congratulations Guys!

Below: Sophomore Reagan Earney and Junior Terry Givens watch their teammate take it to the hoop.
Right: Senior Eric Jones demonstrates artistic poise in the proper slam dunk.



The 1986-87 Hornet basketball team from left to right: Standing — Head coach George Perides, Eric Jones (SR), Preston Gates (SR), Darren Holley (FR), Dennis Williams (SR), Chris Carter (JR), Terry Givens (JR), Assistant coaches Richard Stallworth and James Waldon. Kneeling — Reagan Earney (SO), Fred Watson (SR), John Boulware (SO), David Shelton (FR), Craig Collard (JR), and Anthony Daniel (SR).

Senior Dennis Williams flys in a jump ball challenge with a Georgia Southwestern opponent. Dennis had the highest average for points for the whole season with the Hornets (11.28).

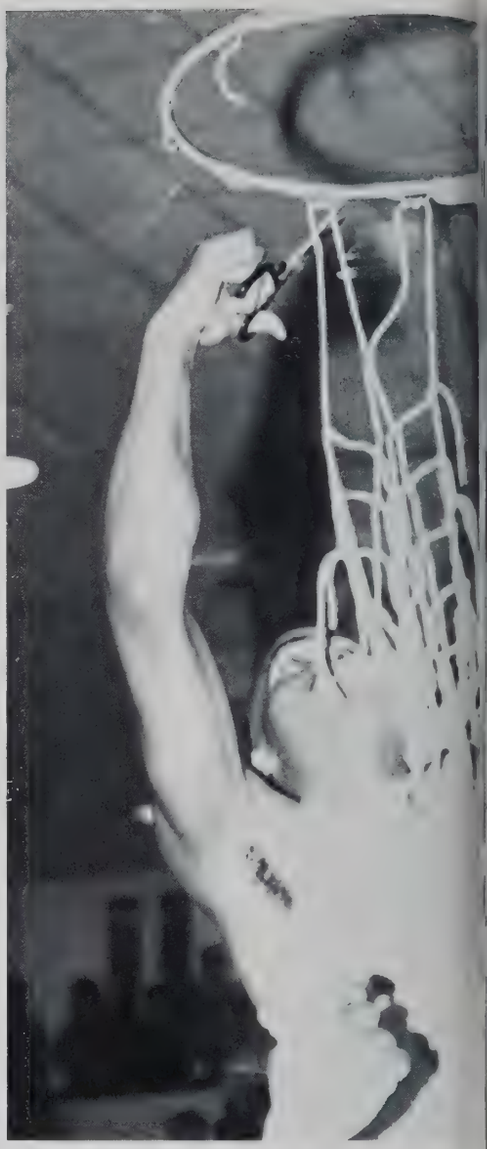


Desperately looking for the inside pass, Senior Anthony Daniel dribbles back to the point position.

The Leader of the Pack

The LOG recently interviewed assistant coach Richard Stallworth and discovered the inside story on head coach George Perides. The 1986-87 Hornet season was Perides' 11th. In the beginning of the season, the running Hornets were picked to win the District at a meeting of coaches in Jekyll Island, GA. Perides was under pressure to meet the pace and get the team together to win. With the super talent of the team and Perides' coaching skills, he got the job done. As a result, Perides was named Co-Coach of the Year for the third time. Way to go coach!

They're Playing Bas-ket-ball . . .



Above: 3 pointers!

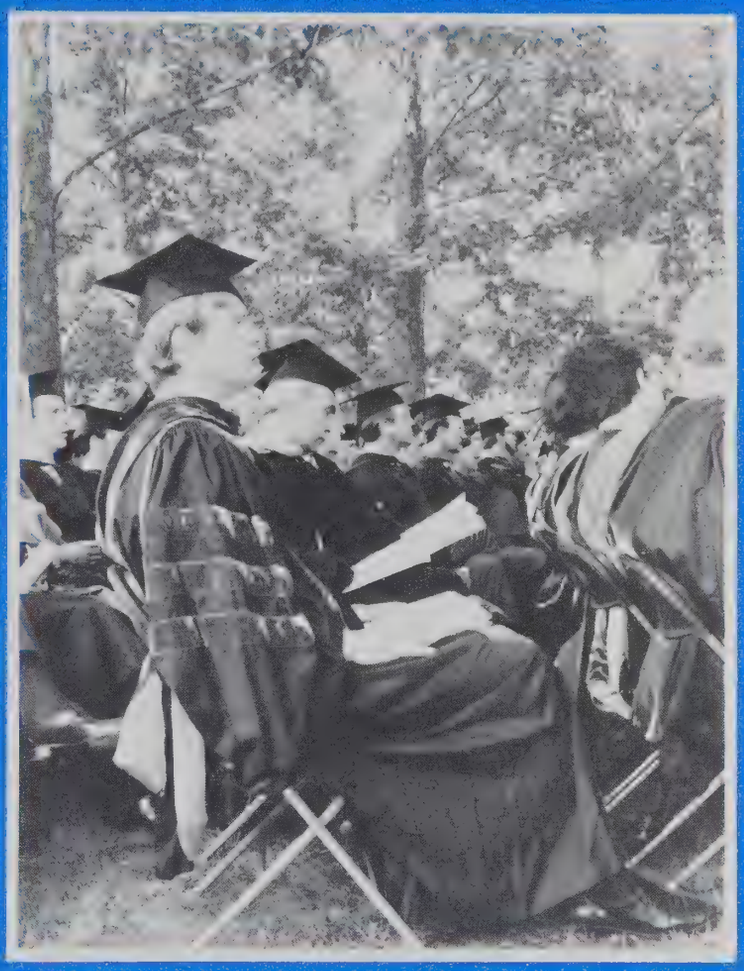
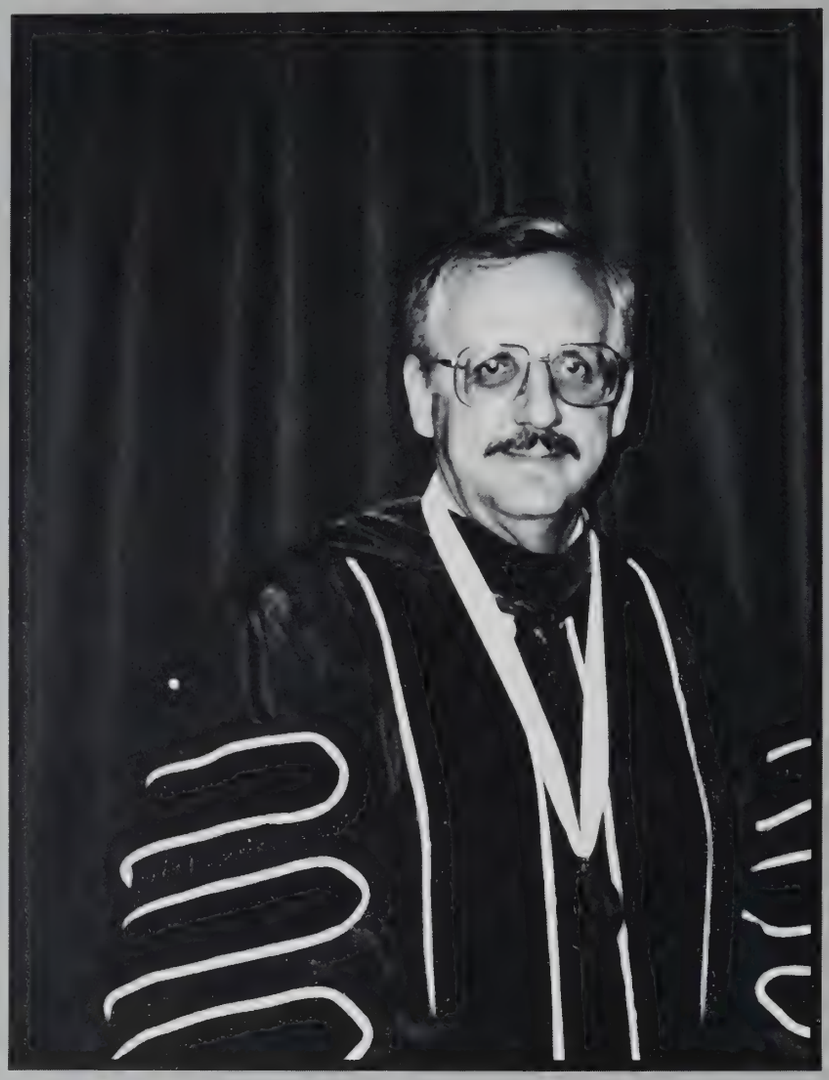
ACADEMICS

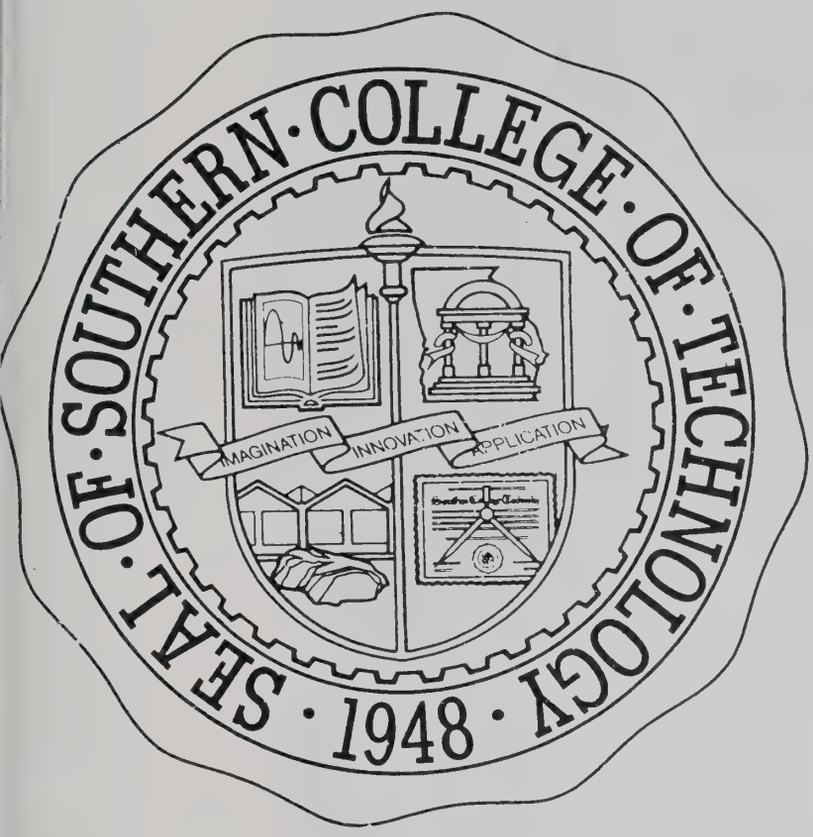
SCHOOL OF ARTS & SCIENCES 80
SCHOOL OF ENGINEERING TECHNOLOGY 84
SCHOOL OF MANAGEMENT & INFORMATION 90

In pursuit of excellence the faculty and staff of Southern Tech strive to give us the upmost in quality education. Through the eyes of our photographers, we will introduce you to some of the people who are responsible for making Southern Tech a leader in the field of applied engineering.





President of the Southern College of Technology
Stephan R. Cheshier



The New Seal

Along with the name change, new construction on campus, and becoming a college consisting of three separate schools: School of Engineering, School of Arts & Sciences, and School of Management & Information, a new school seal was added. This is not the end of Southern Tech's good fortunes; there are more to come.

After much design, debate, and decision, the new seal for ST is finally a reality. Liked by most, the seal is a pictorial description of our school and its personality. The seal was designed by a professional art firm with solicited input from students and faculty. According to the administration, the pictures comprising the seal describe the following: Inside of the name, a circular, gear-like border refers to ST's beginning as a sister school of Georgia Tech (The gear appears in their school). At the center of the seal is a shield, apportioned into quadrants and divided horizontally by a banner which carries the school motto: IMAGINATION, INNOVATION, APPLICATION. At the top of the shield is a torch, an emblem of learning and the leadership role ST has in its fields and a symbol of diligent and continuous application. The torch is a logo for the school: a flaming "S" over the handle "T". The upper left hand quadrant contains an open book whose pages are in motion. The book is emblematic of the various schools at ST. One page of the text refers to the non-technical disciplines. The opposite page reveals a drawing of a damped sine wave, a scientific emblem that is common to all of the technical departments. The upper right hand quadrant refers to the University System of Georgia and Southern Tech's state-wide mission and places the three columns and arch from the System and State of Georgia Seals over an outline of the State of Georgia. The lower left-hand quadrant refers to ST by showing the main archways at the entrance of the school. The large rock in the foreground is also a campus landmark and represents the solidity and focus of the student body. The lower righthand quadrant refers to a continuous line of alumni by showing a Southern Tech diploma. Over the diploma, appears a divider, an ancient tool that is basic to all of the technical disciplines at ST. The dividers also appeared on the old seal of the school.

Vice President for Academic Affairs
Harris T. Travis

Dean of Southern College of Technology
Charles E. Smith

(Acting) Dean of the School of Arts & Sciences
Harris T. Travis

The School of Arts & Sciences is a school that has a specialty all its own. This specialty is the base of a college student's career. The School of Arts & Sciences consists of Mathematics, Physics, Chemistry, English, and Social Studies. These subjects make up the School of Arts & Sciences which is also the beginning of a college career.

To show that you are not forgotten, because your picture is not in the yearbook, we decided to print your name in the book. Each Professor, Instructor, or Dr. will be located in the department in which he or she works in.

Thank You

SCHOOL OF TECHNOLOGY LOG SUMMARY

The School of Technology is made up of the eight Engineering Technology Associate and Bachelor of Science degree programs (Apparel, Architectural, Civil, Computer, Electrical, Industrial, Mechanical, and Textile) and the Construction Administration program. These programs account for approximately 3400 student majors and 70 faculty.

This past year the academic arm of the college published its first ever Long Range Plan. The purpose of this document is to define curriculum and laboratory development plans for the next several years. This will allow us to plan the appropriate application of resources to support these plans.

Several new options/minors hae been developed and implemented in the Technology School. These include manufacturing, graphics, industrial digital controls, microcomputer controls, and quality assurance.

During the course of the year the college received quality improvement funding in the amount of $500,000 for enhancement of laboratory facilities. Major laboratory acquisitions have been made with this money. Approximately $2.5 million in laboratory enhancement is still required if we are to offer state-of-the-art technical programs based on computer automation.

In 1986 the Georgia General Assembly approved a $1.6 million authorization for construction of a Center of Excellence in Apparel and Textile Manufacturing on the Southern Tech campus. This new building, which is currently under design, will contain approximately 20,000 square feet of laboratories, classrooms and faculty offices. The laboratories will include apparel processing, textile processing, textile testing, robotics and instrumentation, and computer-aided design/computer-aided manufacturing. The primary purpose of this new Center will be to better serve the apparel, texile and related industries in Georgia, while attracting more technically oriented graduates to these industries.

Student enrollment in the Architectural Engineering Technology program significantly increased during the past academic year. This has resulted in the addition of a new faculty posiiton for the department. The AET Computer-Aided Design/Drafting Laboratory is the department show piece.

Quarter credit hour generation for the Civil Engineering Technology program has risen sharply during the past year, justifying an additional faculty position. The CET Computer Laboratory was developed, along with acquisition of computerized surveying and plotting equipment.

In Fall Quarter 1985, Southern Tech began offering the Bachelor of Science Degree in Construction Administration. The curriculum for this program was developed in concert with the Associated General Contractors, the construction industry association helping to sponsor the program. This curriculum is designed to meet accreditation requirements of the American Council for Construction Education (ACCE). Southern Tech was formally accepted as a member of the Associated Schools of Construction (ASC). With the help of ASC, it is anticipated that the program will become accredited by ACCE by 1990.

The Electrical and Computer Engineering Technology department made major revisions in its curricula during the past year. A two-course sequence in differential equations is now required by baccalaureate students, the associate degree program is eight quarters instead of six; and new courses have been developed for fiber optics, bit-slice technology, artificial intelligence, optoelectronics, and industrial controls. Two minors for non-electrical students were developed. A $50,000 matching grant was awarded to ECET by the National Science Foundation for development of a Fiber Optics Laboratory.

The Industrial Engineering Technology department initiated a Quality Assurance minor during this past year. A new minor in Technical Sales and Distribution is being added this summer. The potential for a loss control and risk management minor is under consideration. The material handling, methods of work, work measurement, and plant layout laboratories were relocated to the new Academic Building.

The Mechanical Engineering Technology associate degree program has been revised to require seven quarters rather than the previous six. A manufacturing option was developed for the bachelor degree program. A grant of over $300,000 was received from the Georgia Research Consortium for the development of an Automated Manufacturing Laboratory. In order to aid in the development of curriculum utilizing this new laboratory, a $17,000 grant was received from the Society of Manufacturing Engineers.

THE MASTER OF SCIENCE IN TECHNOLOGY MANAGEMENT

A significant event for Southern Tech this year was the creation of the School of Management. This occurence signalled the beginning of a new era for us — Graduate Studies!! Inaugurated in the Fall of 1986, the new graduate degree is named the Masters Degree in Technology Management (MSTM). This degree program is designed for people who possess training and experience in technical fields, but who wish to learn more about the field of management.

"The program came about as a result of input which Southern Tech received from several of our alumni. After working for several years in the businesses and industries of their respective technological fields, many alumni were faced with opportunities to become managers. Because they had no management training; however, they frequently had to forego those opportunities. Over time, many former students requested that Southern Tech initiate a graduate program which would enhance their opportunities first, to be selected to management occupations, and secondly, to be successful in those management positions. Our program was designed to accommodate both of those objectives . . . " according to Dr. Robert J. Yancy, who serves as Dean of the School of Management.

The original class consisted of 39 engineers and technologists. About half of them were Southern Tech Alumni, while the other half represented seventeen other colleges including the University of Wisconsin, Minnesota, Purdue, Georgia Tech, Auburn, Alabama A&M, and the University of Georgia, among others. The students range in age from 33 to 56 years, and are black, white, Oriental, African, Asian, Persian, and South American. The program currently has three full-time equivalent faculty members and expects to increase to four faculty members for next school term.

The program of study for the MSTM degree involves a twelve-course curriculum of which ten course requirements are specified, and two are elective. Students, who attend classes twice per week in the evenings, may select up to three of these courses per quarter. The capstone to the program is a major research project through which the student will have the opportunity to demonstrate abilities in management research, writing, and problem solving. This ten credit hour project provides valuable application of the skills which managers must apply in the workplace.

Requirements for admissions to the MSTM degree program are:

an undergraduate degree in engineering, technology, or one of the applied sciences

two years professional work experience in an engineering environment

test scores from the General Test of the Graduate Record Exam

three letters of reference from an employer and/or a former college professor.

"We are very excited about this program . . . " Dr. Yancy said, " . . . and we have very optimistic expectations and projections for its future growth and success."

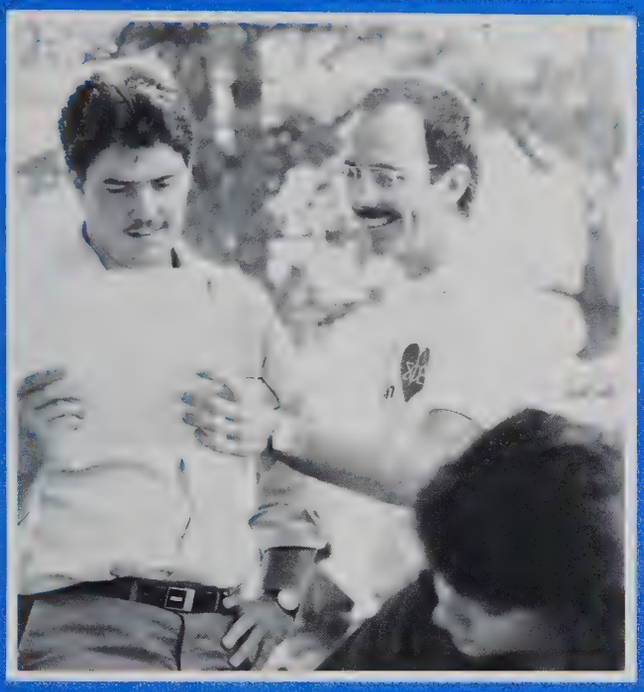
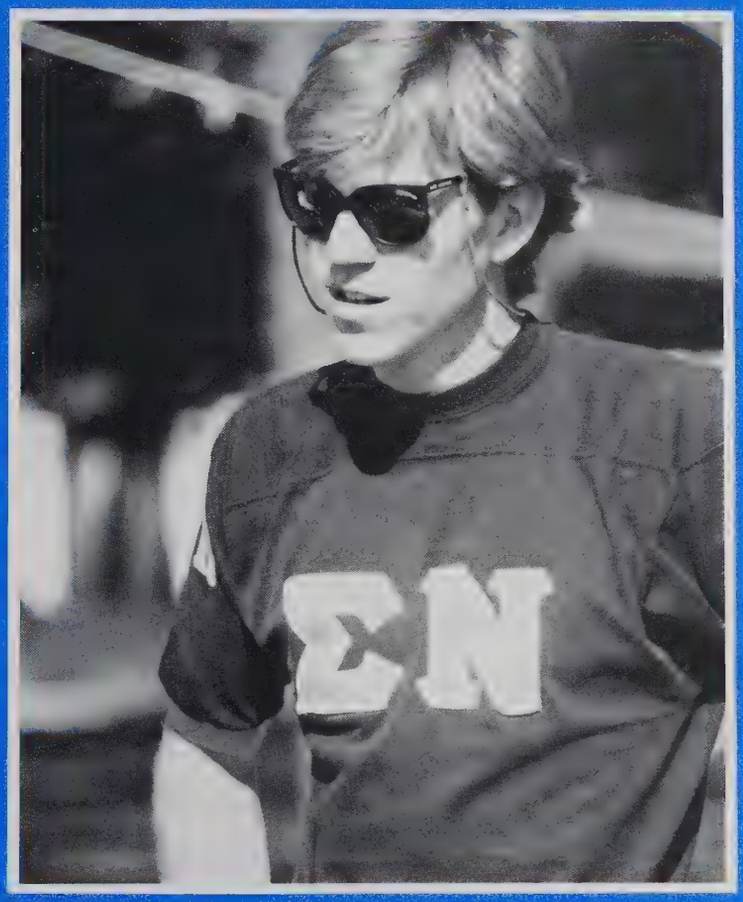
GREEKS

INTER-FRATERNITY COUNCIL 98
FRATERNITIES & SORORITIES 100





Through their representation of brotherhood and leadership, the Greeks way of life has become a very important part of a students overall college experience. From these experiences, we will attempt to give you a perspective of the Greek way of life from actual Greek members.

IFC
Inter-Fraternal Council

The Southern Tech Interfraternity Council is a governing body composed of the representatives of the social fraternities of Southern College of Technology, both National and Local. The individual membership of the IFC consists of three delegates elected or appointed by each fraternity, and each member has one vote on the council. The purpose of the IFC is to represent the fraternities on all matters for which they share a common concern, enhance the positive traditions and values of Greek Life, and to strive and strengthen the Greek system and thereby improve the quality of each individual chapter.

ΑΔΠ
Alpha Delta Pi

Alpha Delta Pi is a Greek society that promotes Christian Womanhood. She was founded in eighteen hundred and fifty-one at Wesleyan College — Macon, Ga. Since that time, Alpha Delta Pi has grown to be a national sorority with 136 collegiate chapters. The Alphas also have the largest number of alumnae in the nation. Alpha Delta Pi was founded on the Southern Tech Campus in 1983 and continues to promote leadership, education, and lifelong friendship.

1986-87 was a fantastic year for the Pi Kapps! Our national fraternity recognized the Chapter at Southern Tech by awarding it with the Champion Master Chapter Award, one of only four out of 107 Chapters. We also increased in size considerably. This was the sixth anniversary of our founding at Southern Tech. Our house is still standing at 439 East Dixie Avenue overlooking the track and field of the Cobb County Civic Center. Picnicing and skiing into '87 is the way for the Pi Kapps at Southern Tech.

Left to Right, 1st Row: Stacey Easler, Heidi Brown, Rebecca King, Vicki Broom, Lisa Long, Michelle Brinkley, Teresa Robertson, Georgianna Conger, Amelia Echols. 2nd Row: Michelle Brinkley, Shae Coggins, Tori Ellis, Courtney Hall, Cindy Yarbrough, Deana Davis, Kenna Rowland, Beth Strickland, Audra Galiano, Robin Alworth. 3rd Row: Karen Smith, Louann Kovall (Advisor), Leslie Smith, Chrissy Switzler, Kim Hopkins, Lisa Carroll, Melissa Carroll, Julie Albright, Angie Bay, Jennifer Culver — Not Pictured.

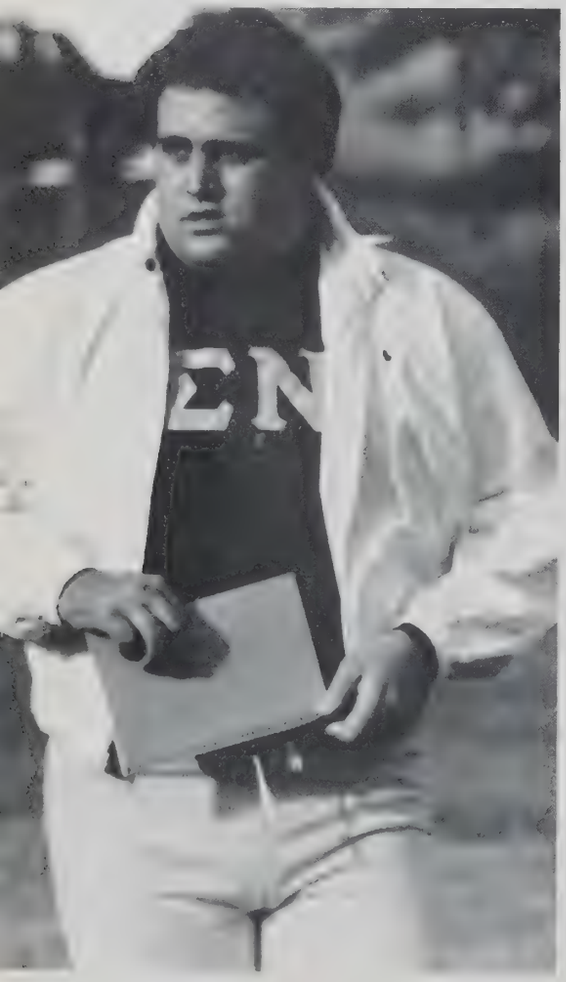
One Day a group of girls were sitting on the rock, and they took a vote and decided to form their own sorority. Now this was a big step for them and the school because there had never been a Women's Greek Organization at Southern Tech. The girls decide to call their organization a local sorority and gave it the name of Alpha Chi Alpha (AXA). In 1979, a year later, they petitioned to several national women's fraternities, and they expressed an interest in one group called Gamma Phi Beta. The girls took a vote, and it was decided that Gamma Phi Beta offered everything that they were looking for in a National Sorority. After one year of colonization, AXA was chartered as the Delta Omicron Chapter of Gamma Phi Beta on Janugary 26, 1980.

The Sigma Phi Epsilon Fraternity was founded n November 1, 1901, at Richmond College in ichmond, Virginia. The Georgia ETA Chapter as founded here at Southern Tech on February 4, 1981. We are one of the fastest growing frater-ities here at Southern Tech. Also, our members re very active in other activities, such as Student overnment Association (SGA), Intramural ports, Campus Activities Board (CAB), and any others. Nationally, Sig Ep is the largest aternity in active brothers, alumni members, nd a number of chapters. We promote Brother-ood by following our three Cardinal Principals: irtue, Diligence, and Brotherly Love.

Left to Right, 1st Row: Leigh Cox, Vicki Lybrand, Rick Morris (The Rickster), Teresa Boatman, Feona Bainbridge. 2nd Row: Mike Sims, Rick Hoffman, Lamar Bevil, Ken Hatcher, Todd (Pickels) Roberts, Peter (The Great) Green, Shawn Nassiri. 3rd Row: Allan Berry, Bob (Miami) Jansen, Mr. Mercer Owens, Brennan (Wildman) Jones, David Owens, Miles Murray. 4th Row: Doug (A-1 Coolguy) Larson, John Burke, Chuck (Chuckles) Adam, Allan Gagnon, Jimmy Ritchie, Carl Thompson. 5th Row: Michael (Spud) Wilson, Mike Bagley, George (E.L.) Lumsden, Gary Millsap, Tony Blose, David Yapp, Allan Gabrillie (Advisor-Teacher).

The Iota Pi, Sigma Nu Fraternity, is proud to announce that this is our tenth anniversity at Southern Tech. Sigma Nu has an ongoing growth in leadership and brotherhood. We are a Fraternity based on Love, Truth, and Honor. Sigma Nu is always setting our goals high and looking towards the future. We also expect hard work and true dedication from our brothers. With these standards, Sigma Nu has, and will always be, a fraternity above all others.

1st Row: John Rogers, Tony Van De Ryt, Paul Gady. 2nd Row: John Hurst, Tommy Tucker, Robbie Newman, Mike Nixon, Sig Feagin, Gary Martin, Mike Beyers, Chad Kenney, David Cottongim, Mike Duke, David Lamb, Harvey Kinsey, Bob Bimister, Scott Slay, Dale Mauldin, Jim Tilgham, Victor Werner, Fred Ricketson, Tim Barrett, Eric Sproat, Steve Cooper, David Reed. 3rd Row: Tom Chambers, Karl Zittrauer, Chris Messina, Steve Arnold, Bert Crumley, Kelly Lane. 4th Row: Chris Creel, Scott Marbutt, Kevin Rosser, John Miller, Robert Escoe, Russ Hancock, Jeff Buchanan, Dan Gilberith. (Joel Dickerson — Not Pictured).



This has been one of the best years of our istory at Southern Tech. This year was the ear that we turned our grades around. We eceived support from each brother to ac-ent our study habits. With a little help and ffort, we maintained G.P.A.'s that 85% of he time were higher than the independents nd the rest of the Greeks.

This is also the year that we cried as we aw Mike Smoker win the Spring Bathtub ace for himself and Lambda Chi Alpha. his was an overdue victory which tastes as weet as an "A" in Calculus.

This is the year that we increased our hapter size by forty percent. Unfortu-ately, with good grades comes graduation nd with graduation sometimes, a person as to say goodbye. However, rushing new nembers turned out to be easy when we nade a personal friend before we made a ushee.

This is the year that we spend being the good guys" raising money for the Epilepsy oundation by eating pizza. We also served ur community by keeping the elementary ids from terrorizing their parents at Hal-oween. The carnival proved to be more fun o us than the kids will ever know.

This is the year of the rock. There was ouble with the real one — it wasn't ortable. So we made one. Contriversial, eautiful, and representative of the true ambda Chi. This one can't be defaced like ne one in the middle of campus.

This is the year we upheld our winning adition in sports by once again beng unde-eated by another fraternity team in foot-all. We have not been defeated by any ther Fraternity team in football in the last ve years.

If you think this was the year . . . wait 'til ext year !!!

Lambda Chi Alpha . . . There is a differ-nce.

t Row: Greg Jones, John Deroachers, Jeff Muir-ead, Chip Morgan, Scott Crider, Scott Lowman, ohn "Fish" Fisher, Jim "Homer" Stovall. 2nd Row: ames Sims, Andy Berryman, Barry Tyson, Rusty illo, Tony "Hot Rod" Brown, Gary Norwood, Frank oud, Richard Isbell, Scott Martin, Ron Sattele. 3rd ow: Rene "Slim" Smith, John Daugias, Ray ance, Kirk "G.Q." ΣΠ
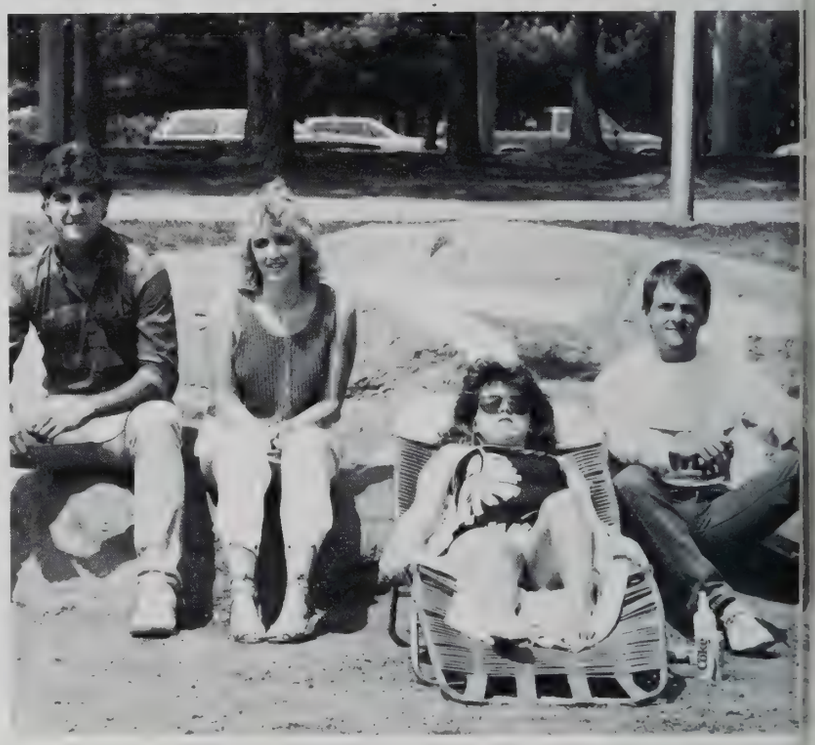
Sigma Pi

With 58 charter members, Sigma Pi was the first National Fraternity chartered on the Southern Tech campus. Sigma Pi fell on hard times at Southern Tech: membership and priorities fell. Four men decided they wanted to see Sigma Pi thrive, with the help of our national office, decided to reorganize the Fraternity. The beginning of Fall Rush '84, Sigma Pi had four members, but once the rush was over, our fraternity membership consisted of twelve men. We began participating in intramurals again finished fourth in intramural football. We also participated in basketball and were the contenders in softball. We won four ribbons in Greek Week and the president was nominated Outstanding Brother of the Year by the National Fraternity

Since then, we've been improving. Last year we placed first in basketball among all Greeks. This year we are striving for the same record. Today our membership contains thrity-three active brothers, and we are planning to move into our new Fraternity House. We are now, and always have been the number one Fraternity at Southern Tech.

SIGMA PI: IT'S NOT A CONCEPT, IT'S A WAY OF LIFE!!!

Top Left: Ralph Webb, Dale Milliken, John Congleton, Alvin Landrum, Clay Tootle, Chris Thompson, Pete Hill, Jon White, Matt Baldree. Standing Left: David Anderson, Freddy Mitchell, Matt Dooley, Chris Hughes, Jim Athon, Jeff Baisch, Alan Gebringer, David Crockett, John Daley, Shane Morris, Greg Price, Tim West, Tom Stewart, Jerry Wingate. Kneeling Left: Bill Cooley, Jim Harris, Mike Gambaccini, Paige Rushton. Not Pictured: Dirk Arp, Richie Bearden, David Brown, Mark Cochran, Derrick Roberts, Brian Wright



Tau Alpha Pi is the National Honor Society for engineering technology students. It is the most selective of all honor societies accepting only the top 4% of all engineering technology students. The present minimum requirements for membership:

1. Junior standing.
2. 40 hours or more at Southern Tech.
3. Overall GPA of 3.5 or higher at Southern Tech.
4. No F's at Southern Tech.

Tau Alpha Pi has always been a part of Southern Tech. It was founded as a local honor society at Southern Tech in the fall of 1948. Today, there are 94 chapters at colleges and universities in 31 states.

The officers for 1986-1987 school year are:

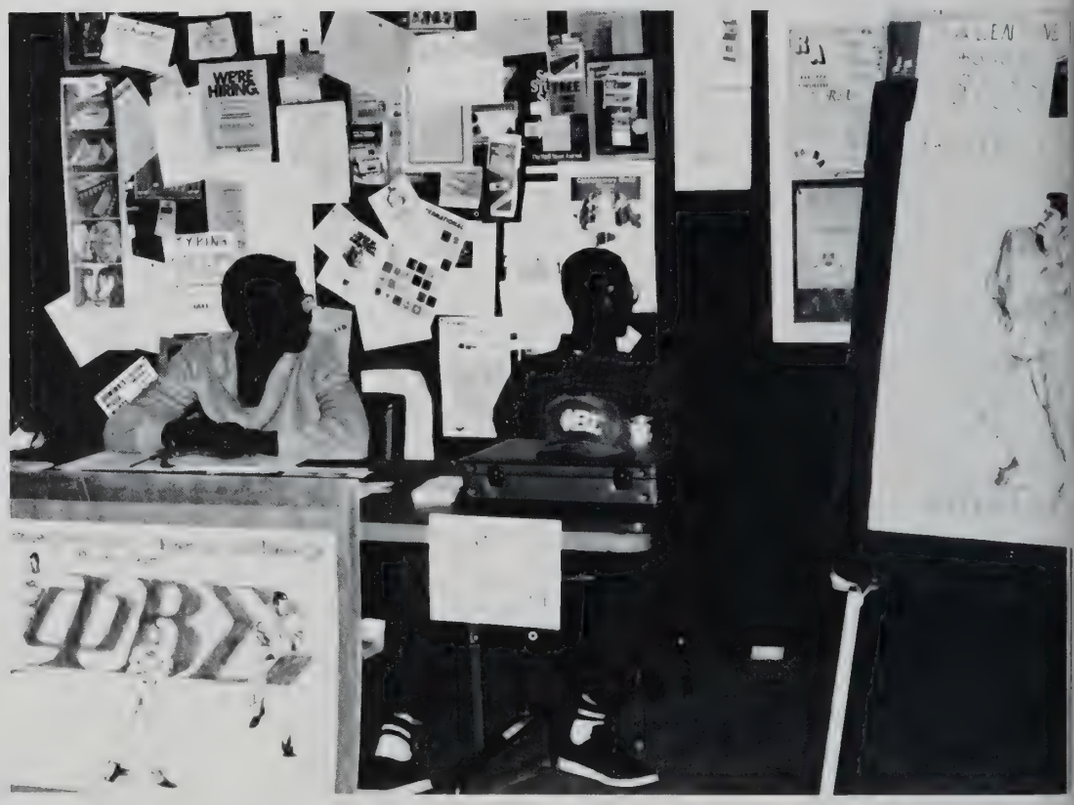
President: Marty Medders
Vice-President: Sherri Hungate
Secretary: Teri Lucyshyn
Treasurer: Leslie Cowart

Left to Right, 1st Row: Sherri Hungate, Marty Medders, Leslie Cowart. 2nd Row: Stephanie Linz, Zohreh Nazeril, Barry Gibbs, Ron Kilgore, Kevin Wright, Robert Fazio, Angel Bias. 3rd Row: Paul Wojnowiak, Robert Cheek, Deneen Sorrells, Don Eddleman, Michelle Moyer, Rhonda Russell, Robert Noland. 4th Row: Bill Weaver, Robert Cannon, Stephen D. Meyer, Chip Carson, Robert Burrell

ΦΒΣ
Phi Beta Sigma

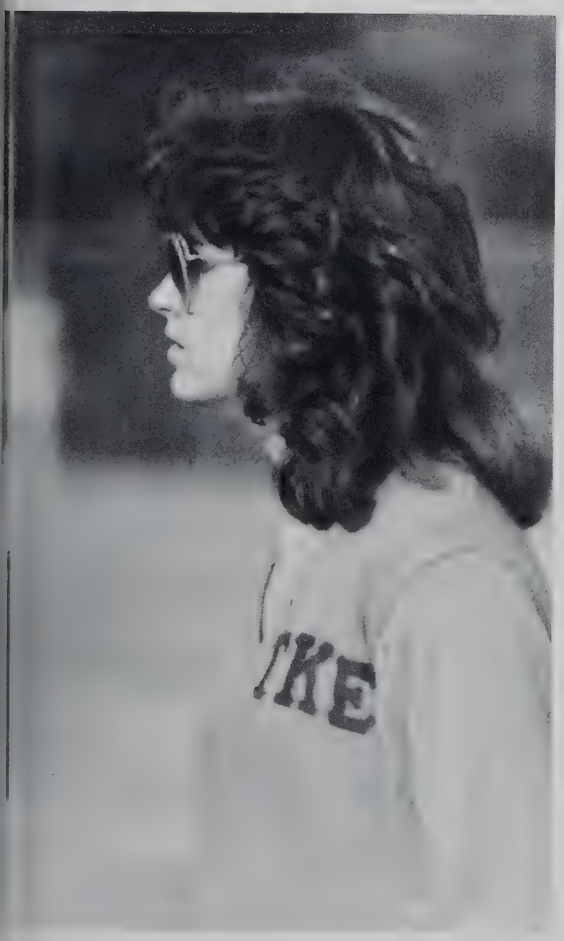
The men of the Phi Beta Sigma Fraternity Inc. are proud of being the most distinguished fraternity on campus. We are an international organization and are continously growing. We strive for excellency: whether its scholastically, personally or as a group, we will succeed!

Sam "The Man" Peaks, Rod "Easy E" Echols, Don "Psycho" Harris, Clark "Virtuous" Burks, Reggie "Pee-Wee" Williams.



TKE
Tau Kappa Epsilon

Left to Right 1st Row: Georgiana Conger, Stacy Easler, Jo Lynn Sams, Audra Galiano, Courtney Hall, Lynn Fielder, Kathy Dixon, Garnett Long, Lamar Owen. 2nd Row: Tim Dwyer, Jimmy Hullett, Scott Bodkin, Jeff Causey, Keith Milford, Mike Durand, Darrell Pippin, Jim Perry, Cliff Leatherwood, Ken Wilber. 3rd Row: Freddie Harris, Dan Crowley, Ken Boggs, Scott Chatfield, Matt Cunningham, Jack Hall, Jeff Mahadeen, Bart Wills, Steve Reynolds, Zach Amacher. 4th Row: Mike Durham, Ashley Vickers, Les Wilkinson, Paul Wilson, Steve Davis, Steve Bennett, Richie Tucker, Scott Robinson, Patrick Eiland, Dennis Pigg, Joe Hayes, Ed Cocciadiferro, Terry Blount, Chris Lindsay, David Golden.

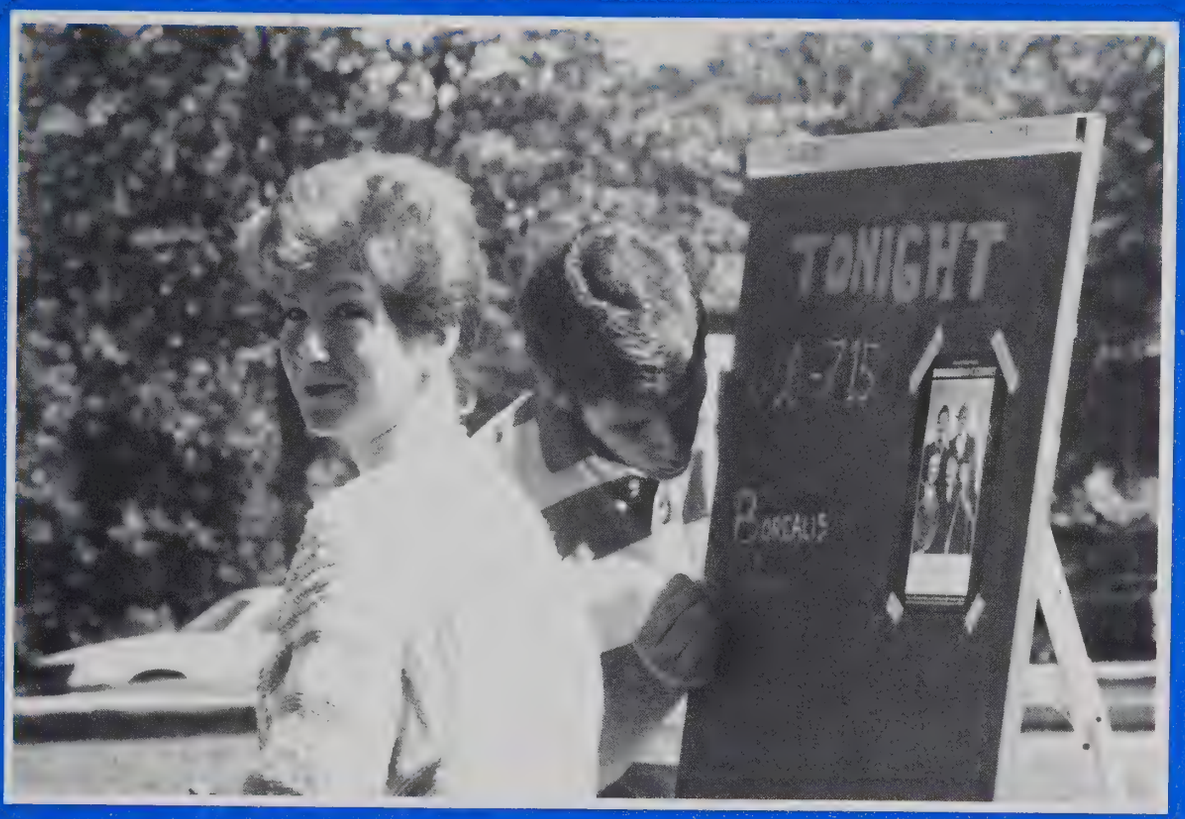


Above are the men of Tau Kappa Epsilon at their finest. The occasion is their annual Red Carnation Ball, where TEKE Fraters celebrate fourteen years of Xi-Chi chapter existence and the founding of T.K.E. in 1899.

Although eighty-eight years has attributed to the superiority of TEKE, ideals also play a key role. The high ideals of love, charity, and esteem dominate TEKE fraters' daily lives and serve as the life blood of the largest fraternity in the nation.

Recognizing the social desires of college men, TKE has brought various likes of these men together for the ultimate college experience and the ultimate fraternal experience . . . FOR LIFE!

ORGANIZATIONS



Another important part of college students' lives are the organizations and clubs that they may participate in. Through interaction with other students interested in common areas, clubs and organizations provide means for students to share their ideas and goals with other students.

CAB
Campus Activities Board

Left to Right, 1st Row: Carl Lobaugh, Tena Mullinax, Bob Blount, Allen Smith, Karen Brown. 2nd Row: Marsha Mccrary (Advisor), John Douglas, Vee Harwell. Not Pictured: Annette Coleman, Danetta Jackson.

Throughout the year many recreational, social, cultural, and edu tional activities occur on campus which help in the rigors of study Southern Tech's Campus Activities Board (CAB) is the primary creato these events.

CAB is a student organization made up of six committees which governed by a central Executive Board and a Program Advisor. Stuc members can choose from categories of Films/Videos, Special Eve Lectures/Cultural Events, Recreation/Novety/Variety, Music/Conce or Publicity/Promotion. Events incorporated into these committees clude the back to school Street Dance, Homecoming, Beach Party, C Week as well as mini-concerts, art festivals and more.

Student members put a lot into CAB and, in turn, get a lot out of it. In past we've attended conventions in Charleston, Washington D.C. have an opportunity to attend the convention in Raleigh this year. We m many people from many places. We get chances to meet and work many celebrities including Billy Ocean, Eddie Kendricks and Dave Ru (of the Temptations), Kathy Rigsby, Joe Bonsal (Oak Ridge Boys) numerous others. In addition, we also have fantastic leadership retrea

CAB is always looking for energetic, high-spirited individuals who looking for a creative outlet. There are no fees or dues, just fun learning. We hope you will consider CAB. Our doros are always open.

The Newly Formed S.T. Drama Club has had an exciting year. Our fall quarter production — Neil Simon's "Plaza Suite" — was a great success. We followed in winter quarter by producing a done as fund raiser for a local organization. We anticipate a successful upcoming year.

One of drama club's first but not only fan anxiously awaiting the club to begin their first performance.

Rita putting the make-up on one of the cast members.

Jazz Ensemble

The Southern Tech Jazz Ensemble was formed several years ago as a Pep Bank for the Basketball Team. Since that time, the band has grown to an award winning Jazz Ensemble. Some of the highlights of the recent past include: winning an award at a Jazz Festival in Orlando, performing at A Night In Old Savannah as the warm-up band for the Preservation Hall Jazz Band in New Orleans, Cobb County Kaliedoscope, and performing for the Lockheed's Management Association Dinner and the Southern Tech Alumni's Formal Dinner. Throughout the year, the Jazz Ensemble also performs at various school functions.

Formed seven years ago, WGHR broadcasts at 102.5 FM for 18 hours a day seven ays a week. The staff, including managers, engineers, and announcers, is composed ntirely of Southern Tech students. With its recent format change to new progressive ternative college music, WGHR has achieved national recognition in the college arket and servicing from over 80 record companies. The broadcasting studio is cated on the lower floor of the Student Center and the transmission site is also cated on campus. We at WGHR are always looking for adventuresome types to xpand our staff.

We of the STING have seen a year where our paper has advanced in great bounds. The STING has grown from an "Okay" paper into a dynamic award-winning publication. This awesome achievement was due to the diligent efforts of our dedicated staff of volunteers. The quest for perfection has only begun!

The Baptist Student Union (BSU) is a well-balanced Christian ministry providing opportunities f· faith-development, community-building, and involvement in meaningful missions. The ɔgram is sponsored by cooperating Southern Baptist churches, but opens its membership to all erested students.

Leadership comes from an elected, executive council which receives direction from The ptist Campus Minister and a Faculty Advisor. A wide variety of programs are offered including ekly meetings, luncheons, local missions, mission trips, retreats, conferences, and social-recre-on activities.

SME

By Bud Wohlhueter
SME Vice Chariman

With the start of a new year, he Society of Manufacturing Engineers (SME) is currently vorking on its programs and nembership growth. However, SME has learned hat many mechanical students re not familiar with the rganization and its fun-tions. So the SME would ke to tell a little of what it is bout and what it has planned or the next few months.

The SME is a professional rganization designed to amiliarize the student with he latest technology used in nanufacturing. Such areas as utomation, robotics, and omputer-integrated-manufacturing (CIM), as well as lathe and milling machines and welding are published in SME's monthly magazine, along with a chance to receive others called 'CIM Technology,' 'Robotics Today,' or 'Machine Vision Quarterly.' With the use of these magazines, the mechanical student can have this up-to-date information at his disposal. In addition, as a member you will hear speakers talk about industry and will go on plant tours.

On February 12, 1987, a reception was held for the new "elite" group on campus, "The Southern Tech Diplomats."

The Southern Tech Diplomats is a new service organization, comprised of students, which promotes communication within the college and the community.

The Student Affairs and Development and College Relations Division co-sponsor this program, which will create opportunities for student alumni interaction and provide services for many official functions within the college setting. The Diplomats promote Southern Tech's mission and spirit and take great pride in serving the college community.

R.O.T.C.

Army Reserve Officer Training Corps

Left to Right, 1st Row: James Henry, Chris Kirkman, Mark Coffin, Glenn Price, Tim Ritchie. 2nd Row: Major Wingard, Amos Durr, Tom Wood, Sean Rowe, Scott Wilder, Richard Spencer. 3rd Row: Greg Nixon, Russ Newman, Craig Ross. 4th Row: John Curley, Greg Kolb. Row: Lieutenant Blanck, Shaun Beil. Not Pictured: Bryan Campbell.

Army R.O.T.C. has enjoyed another successful year at Southern Tech. Mark Coffin, Chris Kirkman, Russ Newman, and Hank Moody all completed Airborne School at Fort Benning, GA, making five jumps from C-130's and C-141's aircrafts. Amos Durr and Scott Wilder completed Camp All American at Fort Bragg, N.C.

Lewis Fricks had a very successful trip to Fort Knox, KY., Basic Camp, then highlighted by winning a scholarship. Hank Moody, Mark Coffin, and Tommy Wood participated in the simultaneous membership program with the Georgia National Guard.

The highlight of R.O.T.C. occurred when Amos Durr, Hank Moody, and Scott Wilder received their commissions into the Army, Army Reserve, or National Guard. This brings the total number of lieutenants in the total Army who matriculated at Southern Tech to eleven in the program's five short years.

During the school year, Tech students participated in three field training exercises to Fort Benning, a military ball, orientation trips to missle command, Redstone Arsenal, AL, The Army Aviation School, Fort Rucker, AL, and to the Army Engineer School at Fort Belvoir, VA. On another occasion, the cadets enjoyed a ski trip to Sugar Mountain, N.C.

Top Left: R.O.T.C. cadets learning air assault techniques while training at Fort Benning.
Bottom Left: During Tri-Service awards ceremony with GA Tech Air Force and Navy R.O.T.C., Hank Moody wins an award.
Center: Russ Newman prepares to fire the M-16 rifle for qualification.
Right Center: Cadet lieutenant Amos Durr and Major B.F. Wingard show results of class on individual camouflage techniques.
Bottom Right: Bryan Campbell directs cadets from Kennesaw College and Georgia Tech on the leadership reaction course at Fort Benning.

ISA
International Student Association

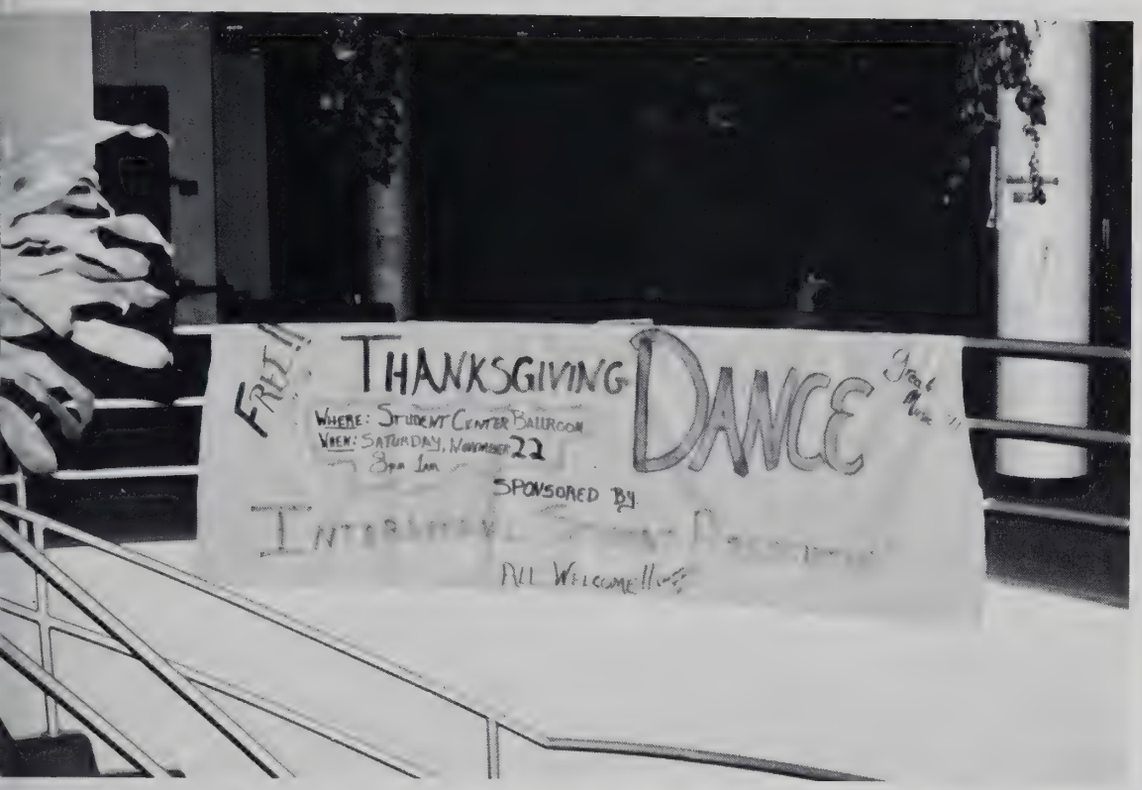
Left to Right, 1st Row: Buddy Reed, Ghass Ends, Sam Ngalame, Ashmael Chigumiro, Dr. Jayanti Lahiri, Prof. Charlie Weeks. 2nd Row: Farai Kowo, German Reategui, Long Bui, Gilberto Palencia, Christian Byrd, Georges Fortechang. 3rd Row: James Babalob, Than Bui, Shahriar Malek, Rajeev Puri, Kamlesh Patel, Mabasa, Harprit Singh, Angel Rivas.

The International Students Organization was newly reformed in the fall of 1986 after a lapse in activity of several months. Amendments to the constitution were approved, officers elected, and now the ISA is well on its way toward a permanent place in the SCT community.

The ISA is dedicated to aid and support foreign students with their activities. The organization is open to all Southern Tech students with a focus in International Student concerns and on fostering a positive International atmosphere at Southern Tech (as per the Preamble of the ISA Constitution).

In the fall quarter, ISA held a highly successful dance on campus with guests from five local colleges. Winter quarter saw the excitement at a Raffle with a $900.00 Simmons Hide-a-Bed donated as a prize. As a final event of the academic year, the ISA sponsored an international dinner for members and select guests. Plans for next year include a Cultural Festival for the campus and community.

Right: Juli Wilson — ISA Advisor and Sam Ngalame — Pres.



Preamble

The International Students Association is an organization established to aid and support foreign students with their activities. The organization is open to all Southern Tech students with a focus on International Student concerns and fostering a positive International atmosphere at Southern Tech.

CLASSES

FRESHMEN
SOPHOMORES
JUNIORS 148
SENIORS 132

The most important part of the campus here at Southern Tech are the students that occupy it. Through the eyes of Southeastern Portrait Company, we bring to you, your fellow classmates.

They have come a long way but only to take on another challenge — a challenge that will have ten times the ups and downs their college lives has given them. But the Seniors that graduate from SCT have a handle on this challenge called life because SCT prepares its students for the real world.

BEING A FRESHMAN ISN'T EASY

I thought I wasn't going to make it through my freshman year; my classes were hard and I hadn't the talents to make it in college — THANK GOD for SCT 101!!!! That class taught me college survival skills; test taking, note taking, time management, and library usage. This class also gave me guidelines for a successful, social, and mental adjustment to the HARDSHIPS of COLLEGE LIFE.

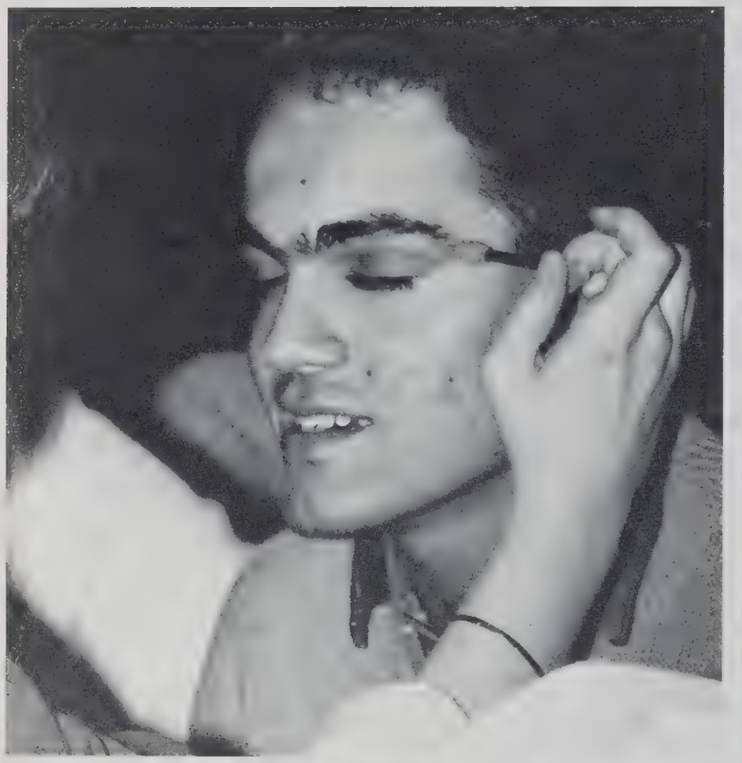
CANDIDS

Right: Believe or not, it's March.
Left: The best in drag — Goat Night.
Middle Right: You ain't gonna do no rambo on me!!
Center Left: This final project is driving me crazy.
Bottom Left: Now this problem worked when the instructor did it on the board.
Bottom Right: How in the world did you get that answer?



Top Left: Darling, you'll get another chance.

The remainder of the pictures are candid pic-shots of students studying and working together. Being serious about their classes and wondering who in the world came up with these "hair-brain" formulas that they must use in order to get a simple answer. Then the other question pops into mind, Why did they (whoever they might be) spend the time to find these formulas — there had to be something better for them to do.

INDEX 192

With the closing of your yearbook marks the end of another year at Southern Tech. At this point we introduce you to the people involved in putting this publication together and to those who help fund it. Also in closing, we give you one last look at who was here at Southern Tech during the 86-87 school year.

By The Professional Plumbers & Pipefitters Local Union 72

A great group of people have been helping to build Atlanta for almost 100 years
HELPING by providing professional plumbing, pipefitting, heating and air conditioning work on Atlanta area homes, schools, churches, office buildings, Marta, and the Atlanta Airport
HELPING by assuring that their work is finished on time, within budget, and is done right the first time
HELPING by providing a 4 year apprentice program, assuring a well trained, dedicated, hard working source of union workers for the Atlanta area building trades industry,
AND HELPING by being concerned, involved citizens in the areas where they live and work
UNION WORKERS. They produce . . . and can be of great help on your next job

Specializing in Environmental and Industrial Hygiene Consultation

With unfailing direction and firm commitment, *Amoco Fabrics and Fibers Company* has become a leader in fiber research, producing a diverse line of fibers, yarn systems and fabrics used every day in the home and in industry.

Carpet fibers and backings
Amoco's continuous filament olefin yarn system, *Marquesa® Lana,* along with the nation's No. 1 backing systems, *ActionBac®* secondary and *PolyBac®* primary, are all used in the manufacturing of America's highest quality carpets.

Construction fabrics
Amoco's complete line of woven and non-woven polypropylene fabrics, used for paving, ground stabilization, erosion control and silt fence, meet or exceed all engineering requirements.

And more
Amoco also provides vital ingredients for end products like wallcoverings, upholstery fabrics, disposable non-wovens and luggage, just to name a few.

So, when you look to the future, look to the leader. Look to Amoco.

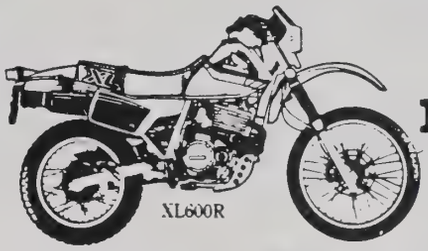
GO ON A POWER TRIP.

The XL600R gives you the power to choose your own course. Whether tripping around town . . . or cross country. Its smooth, potent 589cc engine includes Honda's RFVC™ cylinder head for a wide, controllable powerband. Dual carburetors deliver instant response at any rpm. And air-adjustable forks, Pro-Link™ rear suspension and a front disc brake provide the handling and braking to match. On the road . . . or off. Set your course on the XL600R. And get a feeling of power.



XL600R

Rear view mirrors are standard equipment.

Kawneer

Opportunities for Innovation

Innovation has been a Georgia Tech tradition for more than 100 years. And for 80 years, it has been a shaping force for Kawneer Company, the world's leading manufacturer of architectural aluminum products.

As innovator of the first glass holding metal framing system in 1906, and many product "firsts" since then, Kawneer's architectural systems are featured on many of the world's most recognized buildings.

Our products provide diversity of design to architects and building owners in the United States and throughout the world, where our 15 manufacturing plants are strategically located. Over four thousand employees are dedicated to innovative problem-solving, product integrity and attention to the market needs.

Kawneer Company salutes Georgia Tech, where opportunities for innovation begin.

Bright Thinkers Give Us Our Real Power

Picture Yourself Among The Industry Leading Team of Nuclear Professionals at Georgia Power.

Georgia Power Company, one of the nation's largest utilities, provides electric service to about 3 million customers throughout 97% of Georgia. To meet the growing needs of our customers, we are building new plants while continuing to apply new technologies in improving the efficiency and availability of our existing facilities.

We are also studying ways to improve the use of energy-creating solar heating and cooling systems, electronic load-management devices, and innovative time-of-day rate structures.

The technical nature of our business provides a diverse range of career opportunities for graduates in:

- **Electrical Engineering**
- **Mechanical Engineering**
- **Nuclear Engineering**

Who have interest or experience in:

- **Power Generation**
- **Transmission and Distribution**
- **Telecommunications**
- **Industrial and Commercial Marketing**

As an employee, you'll find the opportunities, facilities, training, and encouragement you'd like in a new career. So find out how we may be able to shed some light on your future. See our representative at your placement office or send your resume to: **Georgia Power Company, Professional Employment, P.O. Box 4545, Atlanta, GA 30302.**

Equal Opportunity Employer M/F

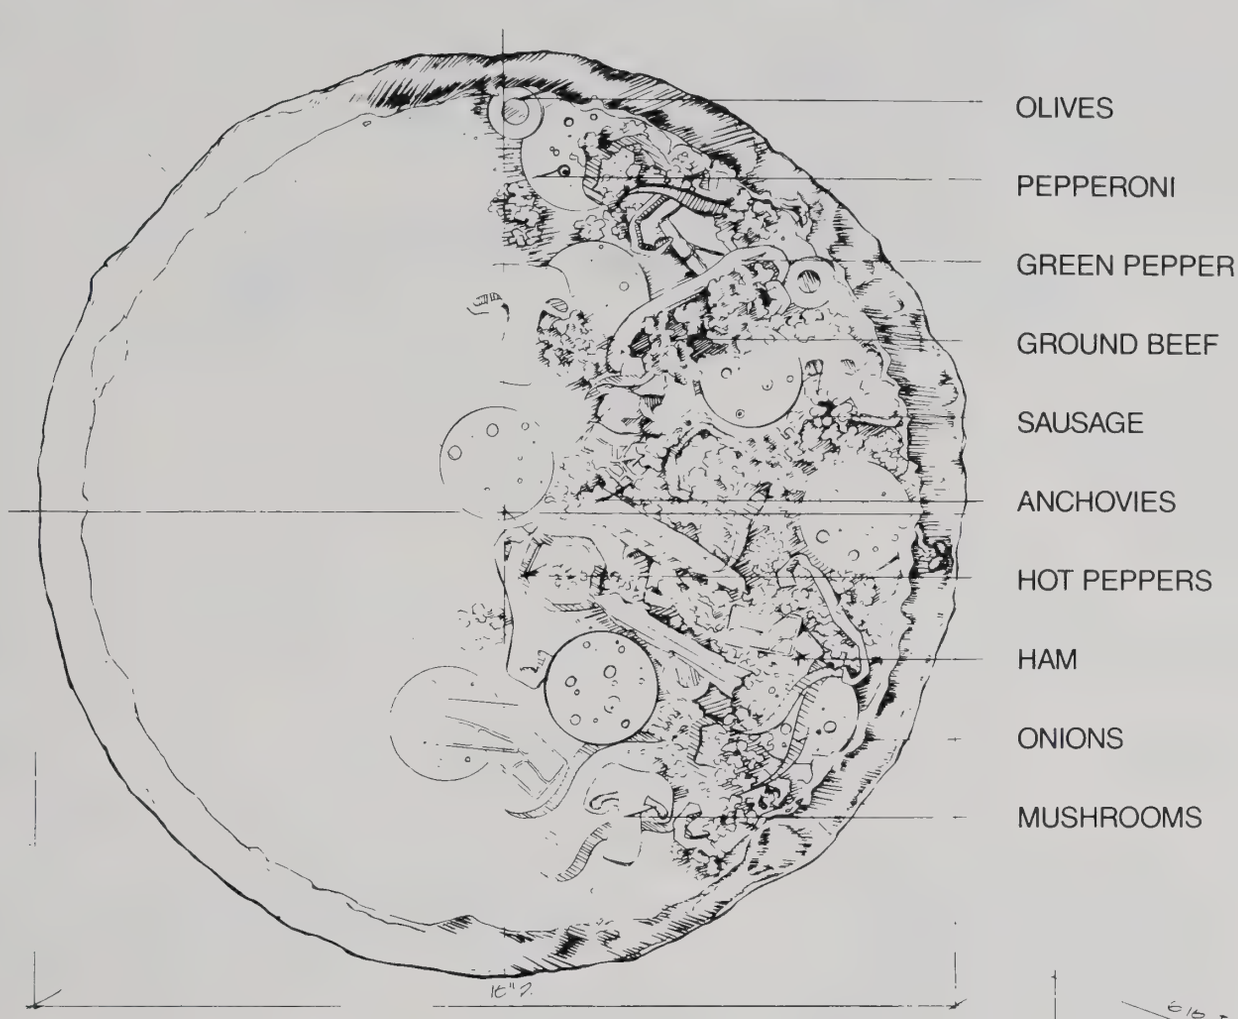
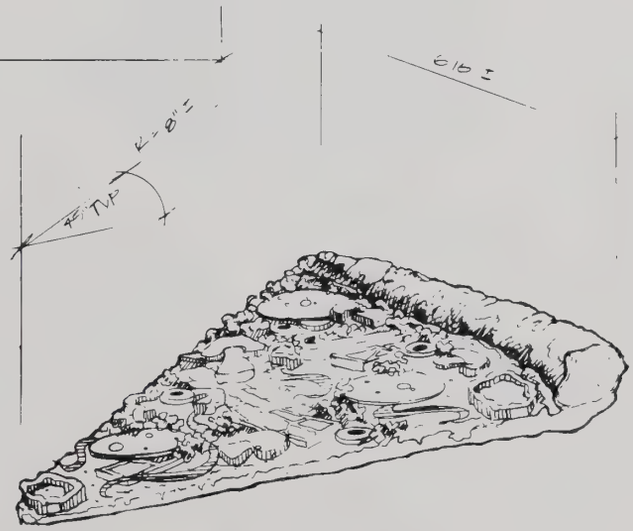
Pizza Specifications



MATERIALS LIST

To make the Perfect Pizza:

1) Fresh Dough – Prepare to perfection. Bake to golden brown in high temperature oven to assure crust that is tender on the inside, crispy on the outside.
2) Savory Sauce – Spread generously on unbaked crust.
3) 100% Real Cheese – In sweeping movements, sprinkle the perfect blend of shredded cheeses over the sauce.
4) Skillfully Prepared Toppings – Add vegetables, meats, cheese, fish – whatever you think tops the Perfect Pizza. All items must be of the finest quality!



But wait a minute! You don't have to go to all that trouble! Just Call Domino's Pizza. We'll custom make your pizza – right to your specifications. And we deliver to your door in 30 minutes or less, or it's $3.00 OFF. Guaranteed!

So Avoid The Noid, Call Domino's Pizza and enjoy your very own, custom made "Perfect Pizza!"

DOMINO'S PIZZA

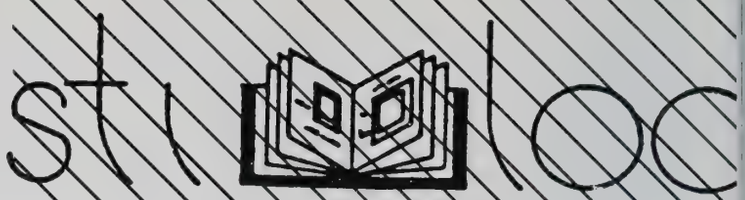
Being editor of the yearbook is a job in itself. I should have known something was up when I was the only one that volunteered for the job. Everybody else obviously knew something I didn't. In the end the job proved to be rewarding. Through all the rough times: Pulling all nighters, pushing deadlines, keeping appointments, etc., I'm glad I had the chance to to try and make a better yearbook. The editorship of a yearbook is an experience for a person who is willing to put forth an upmost effort and an enormous amount of time.

I would like to thank my staff for coping with my various mood changes changes — if a person doesn't normally have them, he will once he takes this job — because without them, this book would have never gotten off the the ground. Special thanks go to Guy Barrett, Ed Bernard, Doris Combs, and and Derek Stewart for their support and being ready and willing to do assignments on the spur of the moment. Another special thanks go to the groups and organizations who submitted the information that was needed to help print this book.


We, the log staff, hope you, SCT student body, enjoy this book as much as we did putting it together.
